Tables and Carts
Table Applications

Tops & Bases

Round
Available in TFL, HPL, plywood, wood veneer, back-painted glass, and solid surface.
➤ See page 7.40 to specify.

- 24" diameter
- 36" diameter
- 42" diameter
- 48" diameter
- 54" diameter
- 60" diameter

Square
Available in TFL, HPL, plywood, wood veneer, back-painted glass, and solid surface.
➤ See page 7.40 to specify.

- 24" x 24"
- 36" x 36"
- 42" x 42"
- 48" x 48"
- 54" x 54"
- 60" x 60"

Soft Square
Available in TFL, HPL, plywood, wood veneer, back-painted glass, and solid surface.
➤ See page 7.40 to specify.

- 24" x 24"
- 36" x 36"
- 42" x 42"
- 48" x 48"
- 54" x 54"
- 60" x 60"

X Frame with Square Legs
➤ See pages 7.43–7.46 to specify.
- Static
- Mobile

- 17"H 20"H 28"H
- 24"D
- 36"D
- 42"D
- 48"D
- 54"D
- 60"D

X Frame with Round Legs
➤ See pages 7.43–7.46 to specify.
- Static
- Mobile

- 17"H 20"H 28"H
- 24"D
- 36"D
- 42"D
- 48"D
- 54"D
- 60"D

X Frame with D Legs
Available with metal or wood legs.
➤ See pages 7.43–7.46 to specify.
- Static
- Mobile

- 17"H 28"H
- 24"D
- 36"D
- 42"D
- 48"D
- 54"D
- 60"D

X Frame with Angled D Legs
Available with metal or wood legs.
➤ See pages 7.43–7.46 to specify.
- Static
- Mobile

- 17"H 28"H
- 24"D
- 36"D
- 42"D
- 48"D
- 54"D
- 60"D

IMPORTANT: All dimensions shown below are nominal and have been rounded to the nearest inch. Refer the appropriate pricing pages for actual dimensions.
**Table Applications**

**Tops & Bases, continued**

**Rectangular**
Available in TFL, HPL, plywood, wood veneer, back-painted glass, and solid surface.

**Overview**

Table Applications

**Table tops** are offered in a variety of materials including TFL, HPL, plywood veneer, back-painted glass, and solid surface.

Six top shapes are available:
- Square
- Round
- Soft square
- Rectangular
- Boat
- Coffee table

**Bases** for use in table applications include:
- X frame (shown at left)
- Epsilon frame (shown below)
- Coffee table frame (shown at right)

**X frames** are available in 17”H or 28”H (static). Mobile X frame is 28”H. X frames support round or square tops.

**Coffee table frame** supports coffee table top.

**4 legs styles:**
- Round (metal legs)
- Square (metal legs)
- D legs (metal or wood legs)
- Angled D legs (metal or wood legs)

**Coffee table tops and bases** combine to create a unique design element to lounge areas. This top shape and base are not interchangeable with other tops and bases.

---

**Planning**

- Statement of Line ➤ See page 7.2
- Planning 7.15
- Pricing 7.40
- Surface Materials 7.90
**Overview**

**Benching Applications**

**Framed screens** are available for benching applications. They offer a tackable fabric surface.

**Options** for incorporating power in benching applications include:
- Power outlet strips
- Power/USB centers
- Undersurface power/data shelves
- 4-Trac power system
- 8-wire power system

➤ See page 7.33.

**Starter frames** includes one set of end legs and rails to begin the bench. The same four leg styles shown for table applications on the previous page: round, square, D, and angled D.

**End leg** completes the end of the benching structure.

**Mid-leg** extension assembly, which includes mid-leg and rails, can be added between starter frame and end leg to create a four-person station. Add more assemblies to make work-stations for 6, 8, or more users.

**Mid-leg** extension assembly, which includes mid-leg and rails, can be added between starter frame and end leg to create a four-person station. Add more assemblies to make work-stations for 6, 8, or more users.

**Mid-leg**, which is part of the mid-leg extension assembly, features a channel for routing cables and power from the bench to the floor. Mid-leg is square profile only.

**Storage units** can be added to the ends of a bench in below, above, or end applications. A flat screen can be added by removing the center shelves on an end storage unit.
**Conference Applications**

Conference table tops are available in ¾"-thick rectangular and boat shapes. 72" and 96"W tops are one piece; 120" and 144"W are two-piece tops. Top materials include:
- TFL with vinyl rim
- HPL with vinyl rim
- HPL with ply rim (looks similar to plywood)
- Plywood
- Wood veneer
- Solid surface

Optional power/data cut-outs are available factory installed; upcharge applies. Power centers are specified separately.

4 legs styles:
- Square (metal legs)
- Round (metal legs)
- D legs (metal or wood legs)
- Angled D legs (metal or wood legs)

Mid-leg on 120" and 140"W conference table frames provides additional support. Cable management channel is built into the leg to route cords and cables beneath the surface to the floor.
Mobile Work Cart Applications

Mobile work carts are 54⅞"H. The basic cart is standard with the frame, back panel, and casters. Worksurfaces are specified separately, as are storage and end panel components. Carts ship knocked down.

Back panels, which ship standard with the mobile work cart, are available in TFL, markerboard, or wood veneer, and can be specified with or without an accessory rail and/or tackable felt. Markerboard back panels are writable on both sides of the unit.

Adjustable-height cart features a pneumatic base to raise and lower the worksurface; no power required. Worksurface adjusts from 28⅛" to 44⅞". The base supports up to 15 lbs. in addition to the worksurface.

Worksurfaces, specified separately, are available in:
- ⅜"-thick thermally-fused laminate (TFL) with vinyl or ply rim
- ⅜"-thick high-pressure laminate (HPL) with vinyl or ply rim
- ¾"-thick plywood with exposed plywood edge (up to 96"W)
- ¾"-thick wood veneer with a wood rim

Note: Plywood tops are ¾" plywood with an exposed edge. Rotary wood grain patterns on tops will vary from one top to another. Small voids may be visible in the edge, which is an inherent characteristic of plywood.

Storage cabinets can be added to either end or both ends of a mobile work cart in the field. They are available in open-shelf, hinged door, and slide-out storage configurations and in TFL or wood veneer. Storage cabinets are handed and include two casters. ➤See markerboard and tackable felt options at right.

Cubbies can be added as set-on-surface or undermount storage. These cubbies are perfect for holding power packs or other small devices.

Note: Undermount cubbies are for use on adjustable-height work cart surfaces only. They cannot be used on static worksurface models due to an undersurface support rail which prevents attachment.

End panels can be added to either end or both ends of a mobile work cart in the field. They are non-handed and available in TFL or wood veneer. ➤See markerboard and tackable felt options at right.

IMPORTANT: Storage cabinets and end panels can be added or removed in the field at anytime allowing for the expansion or reconfiguration of the mobile workspace when needed.

Crave® PowerPack 2 is available through third-party vendors for use in Kore set-on-surface and undermount cubbies. ➤www.cravedirect.com

Cubbies are sized to accommodate the Crave PowerPack model specifically; however, other power packs may also fit; size should be verified. ➤See page 7.69 for interior dimensions of cubbies.
Overview

Mobile Work Cart Applications—Pull Options

Specify pull option and finish together in one step. If pull finish designator is a number, insert an underscore between the pull designator and the finish designator. For finish designators that are letters, put the pull and finish together without a space or underscore.

Examples:

97_487 = Linear pull, Brushed Nickel
64SF = Wisp, Silver Frost metallic

How to Specify

Finishes:
Plated—
487 Brushed Nickel
490 Polished Chrome

*Suitable for ADA applications.
**Overview**

Mobile Carts & Multi-Purpose Table Applications

**Mobile carts** are 75"H and can provide space division or create impromptu gathering spaces. Select from:
- Screen cart
- Screen cart with storage
- Wardrobe cart
- Magnetic markerboard cart
- Media cart
- Cart with seat

**Media cart** can have monitor (up to 30 lbs.) mounted on one side. Reverse side features a markerboard surface. Select sliding-door or open storage below.

**Utility carts** can be used as returns in benching applications or provide a mobile workspace. Worksurface is 28\(\frac{1}{8}\)"H. Units are standard with one white Salt USB center and one white Pepper power center.

**Tri-pod divider screen cart** is available in fabric or translucent/white fabric.

*Note:* Translucent/white screen material is a PVDF (polyvinylidene fluoride) fabric. It allows 80% light transmission with minimal color shift. It is permanently UV resistant and colorfast, and dirt and water repellent. The textile structure and its feel are state of the art; slight variations in the appearance of the fabric are due to small differences in raw materials.

**Multi-purpose tables** are available with optional cut-outs inset into the center storage area below the surface. These cut-outs accommodate a Salt USB and/or Pepper power centers, two facing outward on each side (four total); specified separately for field installation.
Details

KORE tops are available in:
- 3/4"-thick thermally-fused laminate (TFL) with vinyl or ply rim
- 3/4"-thick high-pressure laminate (HPL) with vinyl or ply rim
- 3/4"-thick plywood with exposed plywood edge (up to 96"W)
- 3/4"-thick wood veneer with a wood rim
- 12mm back-painted glass
- 20mm solid surface

Plywood tops are 3/4" plywood with an exposed edge. Rotary wood grain patterns on tops will vary from one top to another. Small voids may be visible in the edge, which is an inherent characteristic of plywood.

Top shapes include:
- Round
- Square
- Soft Square
- Rectangular
- Boat
- Coffee

Grain direction on one-piece wood tops runs with the width in all veneers and finishes. Also applies to plywood tops.

Grain direction on two-piece wood tops runs with the width in the following finishes:
- Cherry (plain-sliced, slip-matched)
- Maple (plain-sliced, slip-matched)
- Walnut (plain-sliced, slip-matched)
- Sapele (quarter-sliced, slip-matched premium veneer); upcharge applies

Grain direction on two-piece wood tops runs with the depth on the following finishes:
- Canyon Oak
- Monterey Oak
- Tuscan Walnut

Grain direction on one- and two-piece woodgrain laminate tops runs with the width. On two-piece TFL surfaces, the woodgrain pattern will not be matched; two-piece HPL tops will have an acceptable match.

Connections

Two-piece tops ship with flat brackets to connect tops at seams.

Hardware ships with base to attach the base to the top.

IMPORTANT: KORE tops are for use on KORE bases only. They are not for use with other products.

Related Products

Factory-installed grommets and cut-outs are available; upcharge applies.

Grommets are also available for field installation.

Exception: Grommets cannot be field installed in glass tops and are not recommended in solid surface tops.
Edge/rim profiles differ based on the top material selected.

**Softened Vinyl Rim (P)**
- Applies to TFL or HPL surfaces
- 2mm vinyl edge
- Profile is on all four sides (except on two-piece conference tops; there is no rim at the seam).

**Ply Rim (E)**
- Applies to TFL or HPL surfaces
- 1mm edge
- Profile is on all four sides (except on two-piece conference tops; there is no rim at the seam).

**Arris Edge**
- Applies to back-painted glass
- 1mm Arris edge top and bottom
- No rim; self edge

**Softened Wood Rim (F)**
- Applies to wood veneer surfaces
- 2mm wood rim
- Profile is on all four sides (except on two-piece conference tops; there is no rim at the seam).

**Plywood Edge (D)**
- Applies to plywood surfaces
- No rim; exposed plywood
- Small voids may be visible in the edge, an inherent characteristic of plywood

**Radius Edge (A)**
- Applies to solid surface
- 2mm radius edge top and bottom
- No rim; self edge
Several flexible options for routing and concealing cords and cables are available for KORE on rectangular and boat tops, including:

- Factory-installed G1 or G19 grommets
- Factory-installed C8, C22, C29, and C30 cut-outs on table and bench tops; C2, C8, C9, C29, and C30 on conference tops
- Cable managers

Factory-installed grommets and cut-outs are available as an option in pre-determined locations; upcharge applies.

➤ See page 7.42 for table applications.
➤ See page 7.51 for benching applications.
➤ See page 7.60 for conference applications.

**G1 plastic grommet** is a two-piece unit with snap-in lid. Lid cutout slides open to route cables or can be closed when not in use. Available in:

- SL Silver
- MB Matte Black

**G19 metal grommet** is a two-piece unit with black brush access. Top locks in place. Powdercoat finish in the following colors:

- 405 Designer White
- 501 Platinum Metallic
- 514 Carbon Metallic
- 490 Polished Chrome
- 487 Brushed Nickel
- 544 Silver Pearl

**C8 cut-outs** (4.06"D x 10.49"W) are for use with:

- Vault power/USB turnbox (KCE4124PD)

**C9 cut-outs** (4.13"D x 14.53"W) are for use with:

- Vault power/data/USB turnbox (KCE4164PD)

**C22 cut-outs** (3.78"D x 4.94"W) are for use with:

- Single-sided pneumatic pop-up power/data center (99KG21, 99KG22, or 99KG26)

**C29 cut-outs** (2.05"D x 8.35"W) are for use with:

- Ashley Trio Power/USB center (KCE0409ATSMWW)

**C30 cut-outs** (4½"H x 12½"D) are for use with:

- Rectangular metal grommet (KCEK30DAA)

**C31 cut-outs** (3½"H x 9½"D) are for use with:

- Rectangular hinged, single-sided, access grommet (KCEK31SAA)

**Perks loop-style undersurface cable manager** organizes cords and cables under tops. Cables pressure fit into individual loops. Openings are 1"D x ½"W x 1"H and can be removed to expand capacity. Black plastic. Set of 6.

➤ See the Perks chapter in the Kimball Desks & Accessories Price List.

**Perks expandable cable manager** manages cables and attaches to the underside of top to route cables and cords to the floor.

➤ See the Perks chapter in the Kimball Desks & Accessories Price List.

**Grommets** are also available for field installation.

➤ See page 7.89 or the Perks chapter in the Kimball Desks & Accessories Price List for additional options.

**Cable management tray** attaches to crossrails on the benching frame to store power and data cables beneath the bench top and up off of the floor.
**Perks® Monitor Arms**

**Details**

- **Monitors up to 20 lbs.** can be accommodated. Single-monitor arm supports one monitor (4–20 lbs.)
- Dual-monitor arm supports two monitors (8–20 lbs. each) and features a crossbar design with Allen head screws to keep monitors secure in public areas.
- Note: Dual-arm monitors must have two monitors attached at all times for balance.

**100mm x 100mm VESA plates** are standard. A 75mm x 75mm plate can be accommodated. The standard VESA plates are not compatible with Apple monitors.

**Arm with integrated cable management** reach is 20” on single models and 22” on dual models. Height adjustment range is 10” on single models and 11½” on dual models.

**Connections**

- **Clamp**
- **Grommet**

**Single-monitor arms** are available in clamp-mount and grommet/bolt-through models.

**Dual-monitor arms** are available in clamp-mount and grommet/bolt-through models.

**Planning Factors**

**IMPORTANT:** Monitor mounts are specific to arm style and are not interchangeable between single and dual monitor applications.

- **Dual-monitor arms with cross bar** can be used for a single-monitor application; however, the cross bar would be exposed.

- **Clamp-mount models** must be mounted on the straight edge worksurface.

- **Grommet/bolt-through models** can be used in holes up to 2.3” in diameter. They cannot be placed over a pedestal, modesty panel, or support panel. Bolt-through application can utilize a hole as small as ½” in the surface.

- Refer to assembly instructions.
X frames are designed to support round, square, and soft-square table tops. They are available in three heights:

- Occasional height (16¼"H)
- End table height (20"H)
- Worksurface height (27¾"H)

**4 legs styles:**

- Square (metal legs)
- Round (metal legs)
- D legs (metal or wood legs)
- Angled D legs (metal or wood legs)

**Metal frame** features powdercoat finish; wood legs are available in wood finishes.

**X frames are sized** to match the dimensions of the table top selected (e.g., 36" x 36" X frame is for use with a 36"-diameter or 36" x 36" top.

➤See pricing pages for applicability by top shape.

**Glides** adjust 1½" and are standard in black.

**Locking casters** are standard on mobile bases.

**Connections**

X frames include hardware to attach the top to the frame.

**Power & Data**

Grommets and cut-outs for power/data centers are not applicable to round and square tops; the X frame is centered beneath the top.
Epsilon Frames are designed to support rectangular and boat-shaped table tops. They are available in two heights:
- Occasional height (161/4"H)
- Worksurface height (273/4"H)

3 legs styles:
- Square (metal legs)
- D legs (metal or wood legs)
- Angled D legs (metal or wood legs)

Metal frame features powdercoat finish; wood legs are available in wood finishes.

Epsilon frames are sized to match the dimensions of the table top selected (e.g., 36" x 36" X frame is for use with a 36"-diameter or 36" x 36" top.
➤See pricing pages for applicability by top shape.

Glides adjust 11/2" and are standard in black.

Factory-installed grommets and cut-outs for power/data centers are available along the back edge only of rectangular tops used with epsilon frames. They are not applicable in the center of the top due to interference with the rail of the epsilon frame that runs down the center of the top.
➤See page 7.42.
**Bases**

**Benching Frames**

**Details**

Benching frames are available in 48” and 60”D models and are designed to support rectangular benching tops at 28½”H.

**Starter frame coupled with an end leg** provides support for a dual-sided, two-person bench.

**Mid-leg extension assembly frame** can be inserted between a starter and an end leg to create a four-person bench (see below right). Additional mid-assembly frames can be added to create bench runs of unlimited length.

**Mid-leg extension assembly frames** feature a square leg only. Leg is inset relative to the leg locations on starter and end leg.

**Glides** adjust 1½” and are standard in black.

**Connections**

Benching frames include hardware to attach the top to the frame.

**Planning Factors**

Framed fabric screens attach directly to the benching frame, providing a tackable divider.

When using power/USB centers or grommets in the tops and no gap is desired, specify two 24”D table tops for 48”D benching frame or two 30”D table tops for 60”D benching frame. Privacy screens are not applicable.
Bases

Elevation (End) View of Bench
60"D frame with 29"D benching surfaces and framed screen
Note: “No wire gaps” also applies to 48"D frame with 23"D surfaces.

Plan (Top) View of Bench
60"D frame with 29"D benching surfaces and framed screen
Storage

For Use in Benching Applications

Details

Storage can be attached above or below the surface or extend from above to below the end of a bench.

Above-surface cabinets are available in 48” and 60” widths to correspond to the depth of benching applications; they are 12”D and 13¾”H. Select open cabinet or cabinet with a sliding door.

Undersurface cabinets are available in 48” and 60” widths to correspond to the depth of benching applications; they are 12”D and 13¾”H. Select open cabinet or cabinet with a sliding door.

Finishes & Materials

- Chassis: Laminate or wood
- Doors: Resin (Glacier)
- End cabinet shelves: painted metal or clear glass

Connections

Attachment brackets and hardware are included with cabinets to allow attachment to the end of the benching frame. Brackets and hardware do not deface the benching frame.

Planning Factors

Storage extends beyond the benching frame and top. Consider the additional depth of the storage unit when layout out benching applications in floor plans. End cabinets can be mounted to match the top of 14” or 21” divider screens.
Framed Screens & Surface Dividers

For Use in Benching Applications

Details

Framed, tackable fabric screens provide space division in benching applications. These framed screens are 13/16”D and available 14” or 21”H.

Filler strips are available in 6”, 12”, and 24” widths, and may be used when tackable screens are specified in widths smaller than the benching application to create an opening between the screens.

Side-to-side surface dividers are available in fabric, TFL, or HPL (markerboard). Dividers are available 22” or 28”D and 14” or 21”H. Surface dividers slide over the front or edge of the benching top, or any surface up to 13/16” thick, and is secured in place with two thumbscrews.

Finishes & Materials

- Screens: painted frame surround with panel fabric on both sides (railroaded)
- Filler strips: painted metal
- Laminate surface dividers: TFL or HPL (markerboard)
- Fabric surface dividers: hardboard and fiberglass core with panel fabric on both sides

➤ See page 7.94 for fabric selection.

Connections

Thumbscrews on side-to-side surface dividers extend 3/4” below the KORE top.

Planning Factors

Framed, tackable fabric screens are designed to span the width of the structure up to 72”W or can be specified 12” shorter than the top to create an opening in the center for impromptu meetings or consulting. Use a filler strip to fill the opening between screens when specifying the screen shorter than the surface.

Screens can also be centered on each frame, creating a 6” or 12” opening on each end and a 12” or 24” opening between screens that is filled with a filler strip.
Mobile Carts

Details

Mobile carts feature square metal frames. Carts, except utility and seat cart (without storage), are 75"H.

Locking casters are standard on all mobile carts.

Mobile wardrobe cart includes a metal coat rod and painted umbrella stand.

Tri-pod screen cart is a space divider that can be used to create an impromptu meeting space or simple division between areas in the work-space. Screen material options include fabric, tufted fabric, and translucent/white PVDF fabric.

Magnetic markerboard cart combines instant space division with a metal markerboard surface on both sides.

Media cart provides a mobile solution for video viewing. Monitor (up to 30 lbs.) may be mounted on one side above sliding-door or open storage unit below. Cords can drop between the panels and run through the center divider in the storage area, exiting through the bottom of the cart.

Mobile screen cart with open storage is similar to mobile screen cart with the addition of an open bookcase on one end that is open to both sides.

Seat cart with storage features a full back panel to provide space division along with sliding-door or open storage. Seat cushion on top of storage unit provides seating. Back cushion, if desired, may be specified separately. Tufting is also offered as an option. Seat is 19 7/16"H.

Utility carts feature an open top unit. They provide flexibility for easy movement throughout the space and can be used as part of a benching application as a return work area. Utility carts are 18"D and 42" or 48"W. Overall height is 38 5/8"; surface height is 28 1/2". Utility carts include one white Salt USB center and one white Pepper™ power center.

Seat cart is available with a fixed, plain or tufted fabric cushion and provides a mobile seat for one or two people. The seat is 18"D x 48"W x 19 7/16"H; overall height of the unit is 24".

Frosted resin or markerboard side inserts, specified separately, are available for all tall mobile carts to add additional privacy and functionality.

Modesty panel is available separately for use with utility carts. It is available in laminate or wood veneer.

Markerboard or tackboard are available separately for use with utility carts.

Magnetic marker/eraser holder, specified separately, sticks to magnetic markerboard or other metal surface to keep markers and erasers close by.
Multi-Purpose Tables

### Details

**Standing-height multi-purpose tables** provides a 42"H work area.

**Standing-height ganged multi-purpose tables** provides a larger 42"H table to gather or work. Optional cut-outs provide four openings on each side for field-installation of Salt USB and Pepper power centers.

### Related Products

**Stool seating** can be incorporated with standing-height multi-purpose tables to create a tall benching area.

**Perks expandable cable managers** can be used to route Salt and Pepper power cords to the floor. See the Perks chapter in the Kimball Desks & Accessories Price List.

**Low-height multi-purpose tables** are 30"D and available 60" or 72"W. Low-height units are 17"H and available in static or mobile models.

**All multi-purpose tables** are available with optional cut-outs in the storage area below the top (see grey area in top view illustration) for field installation of Salt USB and Pepper power centers, two on each side (four on each side of ganged model). Cut-outs are located inside the center storage section below the top (see grey area in illustration).

**Field installation of grommets or power centers** in the center of the table top is possible. Area available is 5.9"W x 12.6"L when Salt and Pepper units are not installed.
KORE™
Tables & Carts

Power and Data Overview

KORE offers three power options:
• 4-Trac multi-circuit power system
• 8-wire power system
• Corded

8-Wire:
8-wire system for benching applications accommodates up to 13 duplex receptacles per circuit and is rated for 20-amp service. Select either 3 and 1 or 2 and 2 circuit configuration. To support the usage, 15-amp convenience receptacles can be placed anywhere along the leg of the electrical connection. All electrical components are UL listed.

System is comprised of:
• Power in-feeds
• Power distribution blocks
• Jumpers
• Receptacles

4-Trac Multi-Circuit:
This low profile, non-sequential, 15-amp (2 circuits) or 20-amp (1 circuit), daisy chain system for benching applications provides 4 wires, and powers up to 12 duplex receptacles per circuit. All electrical components are UL listed, with the exception of the 20-amp power in-feed with plug which is UL recognized.

Power kits are installed facing downward, allowing it to be accessed from both sides.

Up to twelve tables can be linked together.

System is comprised of:
• Power in-feeds*
• Single-sided modular power kits that include two duplex receptacles and harness
• Table-to-table jumper

* Rotating power in-feed with quick disconnect, hardwire and hardwire for NYC in-feed models are also available.

Corded:
Corded components are stand alone units that plug directly into a wall outlet. They can be used in a single table application or can plug into the 4-Trac or 8-wire power system duplex receptacle under the top. All electrical components are UL listed.

Three types of stand alone units are available for corded applications:
• Power outlet strips
• Power/USB centers
• Undersurface power/data shelves

Power/USB centers installed in corresponding cut-outs in 22", 23", 24", 28", 29", and 30"D tops provide receptacles and USB outlets at worksurface level.

Power strip lays in cable management tray. Accessed from above by using 22" or 28"D benching tops. Power strip provides three receptacles per user.

Undersurface power module provides two powered USB, one receptacle, and a blank data port that can accommodate one of eight provided adapter plates.

IMPORTANT: Installation and use of electrical systems, the number or receptacles used on a given circuit, and connections to the building power supply should be in compliance with all local and national codes. Verify code requirements before ordering.
**8-Wire Power System**

For Benching Applications

**Specify bench top** one or two inches shorter in depth to allow cords to drop behind the surface and plug in below.

**Specify bench top with a factory-installed grommet** to allow electronics to be plugged in directly to duplex receptacles below the bench top when using full-depth tops.

**Specify a factory-installed cut-out in bench top and a power/data center separately** to provide power above the surface. 3-prong plug plugs directly into a receptacle below the top.

**IMPORTANT:** Installation and use of electrical systems, the number or receptacles used on a given circuit, and connections to the building power supply should be in compliance with all local and national codes. Verify code requirements before ordering.

**Dual-sided double distribution block** provides for two receptacles, four outlets, per side.

**Table-to-table jumper** connects power kits, jumping power from one bench to the next.

**Power and data cabling** can be routed through the cable management channel that is part of the mid-leg extension assembly.
8-Wire Power System

Details

8-wire power system for KORE benching offers three power entry options:
- 8-wire floor power entry
- Circuit 1-only power entry
- New York power entry

8-wire floor power entry is 6’ long. Connection is made by snapping into the end of a power kit.

Circuit-1-only power entry is 10’ long and can be a quick solution for a maximum of 12 receptacles.

New York power entry allows hardwiring to comply with local codes.

Dual-sided double distribution blocks include mounting brackets that attach to the underside of the framed screen, centering the distribution blocks on the bench.

8-Wire Power System

Jumpers connect dual-sided double distribution blocks in multi-person bench layouts.

Duplex receptacles are rated at 15 or 20 amps; 20-amp receptacles are required for some large equipment and have a keyed-slot on the hot side of the receptacle. Duplex receptacles are available in black or white; designated circuit models have a Δ imprinted on them.

Universal series bus (USB) powered receptacles are a 2-amp, circuit-1-only. Each receptacle provides two powered USB ports to charge/power peripheral devices.

Hardwire box allows hardwiring of power to comply with local codes. Choose the hardwire box that fits the application, either above or below surface. Hardwire boxes allow one receptacle per box.

Electrical management system can be added to meet the compliant criteria of ASHRAE 90.1-2010 and California Title 24. The system consists of:
- Monitor control device (MCD)
- Sensor that signals the MCD to shut off the power when no activity is present.

MCD must be installed by a licensed electrician between the building power and the power entry. MCD mounts to underside of the worksurface. This system can also be used with Xsite, Cetra, and Interworks 8-wire applications.

For jumping power between benches, select the appropriate jumper:

<td>KCE64J8</td>
</tr>
</tbody>
</table>

Planning Factors

Both 8-wire and circuit-1-only systems utilize the same electrical components, except for the power entries.

Perks expandable cable manager manages cables and attaches to the underside of top to route cables and cords to the floor.

Related Products

Perks expandable cable manager manages cables and attaches to the underside of top to route cables and cords to the floor.

8-Wire Power System

3 and 1 (8-wire):

Circuits 1, 2, and 3 share a neutral and common ground, providing circuits for general electrical needs. Customarily, one or more of the circuits are reserved for lighting or other everyday uses, which allows control by central or master switching.

Circuit 4 consists of three separate conductors (hot, neutral, and ground) and meets the BIFMA/ANSI definition for a dedicated circuit.

2 and 2 (8-wire):

Circuits 1 and 2 provide a pair of designated circuits for general electrical needs.

Circuits 3 and 4 provide a pair of designated circuits for computer applications.

IMPORTANT: Planning actual power supplies and branch circuits must be performed by qualified electricians or electrical engineers familiar with the National Electrical Code and the appropriate local codes. The information provided here is intended to assist specifiers.

IMPORTANT: KORE 8-wire electrical components are UL listed under the KORE name and are not interchangeable with other Kimball series.
**4-Trac® Multi-Circuit Power System Overview**

For Benching Applications

**Determining Circuit Usage:**

The decision to specify circuit-1 only or to use circuit 1 and 2 together is based on how many tables you wish to power.

- **Circuit 1 only:**
  - Utilizes circuit 1 power kits
  - Can power up to 6 tables maximum off of one power in-feed
  - Provides two duplex receptacles to each table for a total of 12 duplex receptacles per run
  - Can be powered with 15-amp hardwire (standard or NYC model), rotating 15-amp hardwire, or 20-amp plug-in power in-feed

- **Circuits 1 and 2:**
  - Accommodates a combination of circuit 1 and 2 modular power kits
  - Can power 7 or more tables (maximum of 12) off of one power in-feed
  - Provides two duplex receptacles to each table for a total of 12 duplex receptacles per run
  - Can be powered with 15-amp hardwire (standard or NYC model) or rotating 15-amp hardwire.
  - Cannot be powered with 20-amp plug-in power infeed
  - Circuits 1 and 2 can alternate table to table or they can be in succession (see diagram at left) since the system is non-sequential and will automatically connect to the correct circuit

**Specify bench top** one or two inches shorter in depth to allow cords to drop behind the surface and plug in below.

**Specify bench top with a factory-installed grommet** to allow electronics to be plugged in directly to duplex receptacles below the bench top when using full-depth tops.

**Specify a factory-installed cut-out in bench top and a power/data center separately** to provide power above the surface. 3-prong plug plugs directly into a receptacle below the top.

**IMPORTANT:** Installation and use of electrical systems, the number or receptacles used on a given circuit, and connections to the building power supply should be in compliance with all local and national codes. Verify code requirements before ordering.

**Table-to-table jumper** connects modular power kits, jumping power from one table to the next.

Details

Low profile, non-sequential, 15-amp daisychain system provides 4 wires and 2-circuits. Utilizing a single power in-feed, the system powers up to 12 duplex receptacles per circuit or up to 24 duplex receptacles when using both circuits.

Three types of 15-amp power in-feeds are available to bring power from a wall or floor-mounted power box:
• Hardwire
• Hardwire for NYC/San Francisco
• Rotating with quick disconnect

Determine your need based on the available power source and local electrical codes. There are no restrictions in connection sequence.

IMPORTANT: All power in-feeds require installation by a licensed electrician.

Rotating 15-amp power in-feed is available to replace an existing wall outlet. Allows quick disconnect from wall outlet. A 72"L jumper, specified separately, connects the rotating power in-feed to a modular power kit. Jumper is encased in black liquid-tight conduit.

20-amp power in-feed with plug is available. Modular end connects to modular power kit.

4-Trac power in-feeds attach at the start of the power run.

Specify the appropriate cut-out size for corded units to install in the top and plug into the duplex outlet underneath the top to bring power to the surface.

Specify tops with G1 or G19 grommets to allow desk top electronics to be plugged in under the surface. This is a lower cost alternative and practical for more permanent or semi-permanent configurations, such as teaming environments.

All parts are UL 183 listed, with the exception of the 20-amp power in-feed with plug which is UL recognized.

Modular power kits contain:
• Two 15-amp duplex receptacles Modular power kit is centered under the framed screen on the bench.

40", 52, and 64"L jumpers are available to extend power between modular power kits on adjoining tables. Jumper is encased in black liquid-tight conduit.

Important: The 20-amp power in-feed limits the system to a single circuit only and accommodates a maximum of 12 duplex receptacles; all modular power kits in the series must be Circuit 1. This infeed will not plug into a 15-amp power outlet.

Perks expandable cable manager manages cables and attaches to the underside of top to route cables and cords to the floor.

See the Perks chapter in the Kimball Desks & Accessories Price List.
**Bench tops** can be full depth when surface-mount power/USB modules are utilized. Alternatively, tops can be 1” or 2” shorter in depth allowing power strip to be utilized in the cable management tray.

**A variety of cut-out options** are available for bench tops, allowing users a variety of power/data components from which to select. ➤See page 7.51 for cut-out options.

**Cable management trays** attach to bench frame, allowing cords to be dropped behind the surface. Bottom of tray is 4¼” below the surface (23¾” off the floor).

**Power/data centers** are specified separately.

**Power and data cabling** can be routed through the cable management channel that is part of the mid-leg extension assembly.

** This model is 41"D when specified in solid surface (SS).

Important: Specify top to match the depth and width dimensions of the table frame.

Tops on this page are for use with KORE bases only.

Boat table tops are not available with factory-installed grommets or cutouts.

Tops are ¾" thick.
Exception: Back-painted glass is 1 ½" thick and solid surface is 1 ½6" thick.

How to Specify

1. Model
2. Material/rim material:
   - LL = TFL with vinyl rim
   - LLD = TFL with ply rim
   - L = HPL with vinyl rim
   - LD = HPL with ply rim
   - W = Wood with wood rim
   - D = Plywood
   - SS = Solid surface with self rim
   - BPG = Back-painted glass
3. Rim profile (omit for plywood (D) and back-painted glass (BPG)):
   - P = Softened vinyl rim (LL or L)
   - E = Flat ply rim (LLD or LD)
   - F = Softened wood rim (W)
   - A = Radius rim (SS)
4. Grommet/cut-out option (omit for boat top and glass top):
   - X = None

➤ See page 7.42 for designators.
5. Surface finish price group (include for HPL (L), HPL with ply rim (LD), and wood (W) models only):
   - STD = Group 1
   - STD2 = Group 2 (+20%)
6. Surface finish designator
7. Rim finish designator (omit for wood (W), plywood (D), glass (BPG), and solid surface (SS) models)

Grommets and cut-outs are only offered on rectangular table tops in the center back location.

> See page 7.23 for complete description of grommet and cut-outs.

### Available Finishes

**Grommets:**
- **G1** Plast.: MB Matte Black
- **G19** Met.: 405 Designer White, 487 Brushed Nickel, 490 Polished Chrome, 501 Platinum Metallic, 514 Carbon Metallic, 544 Silver Pearl

### How to Specify

#### Grommets

1. Insert the location and finish designator into model number sequence as indicated on the pricing page.

Note: Specify grommet location and finish together without a space between the location and the finish designators. For example:
- **G1CMB** = G1 grommet, center, matte black
- **G19C501** = G19 grommet, center, platinum metallic

#### Cut-Outs

1. Insert the location designator into model number sequence as indicated on the pricing page.

IMPORTANT: Only the grommet and cut-out locations shown in the matrix at left with a designator and price are available as standard.

## IMPORTANT:
- Specify frame to match the depth and width dimensions of the table top. Bases on this page are not for use with round tops.
- Mobile X frames are not available with wood legs.
- Mobile X frames with round, D, and angled D legs are applicable to soft-square tops; square X frames are applicable to square tops only.
Table Applications

Epsilon Frames for Rectangular and Boat Tops

**Standard Includes**
- Frame
- Adjustable glides
- Attachment hardware

**How to Specify**

1. **Model**
2. **Leg shape:**
   - S = Square leg
   - D = D leg
   - DA = Angled D leg
3. **Frame/leg material:**
   - P = Metal frame/metal legs
   - PW = Metal frame/wood legs
   (applicable to D legs and angled D legs only)
4. **Frame paint group**
   - STD = Group 1
   - STDM = Group M (+10%)
   - STD21 = Group 21 (+10%)
5. **Frame paint designator**
6. **Wood finish price group (include for wood leg models only):**
   - STD = Group 1
   - STD2 = Group 2 (+20%)
7. **Wood finish designator (include for wood leg models only)**

---

**Important:** See matrix at right for the appropriate epsilon frame model based on top size and shape.

Epsilon frames are applicable to rectangular and boat table tops only.
## Standard Includes

- **Top**

### Material/rim material:
- **LL** = TFL with vinyl rim
- **LLD** = TFL with ply rim
- **L** = HPL with vinyl rim
- **LD** = HPL with ply rim
- **D** = Plywood
- **W** = Wood with wood rim
- **BPG** = Back-painted glass
- **SS** = Solid surface with self rim

### Rim profile (omit for plywood (D) and back-painted glass (BPG)):
- **P** = Softened vinyl rim (LL or L)
- **E** = Flat ply rim (LLD or LD)
- **F** = Softened wood rim (W)
- **A** = Radius rim (SS)

### Surface finish price group (include for HPL (L), HPL with ply rim (LD), and wood (W) models only):
- **STD** = Group 1
- **STD2** = Group 2 (+20%)

### Rim finish designator (omit for wood (W), plywood (D), glass (BPG), and solid surface (SS) models)

## How to Specify

1. **Model**
2. **Material/rim material:**
   - **LL** = TFL with vinyl rim
   - **LLD** = TFL with ply rim
   - **L** = HPL with vinyl rim
   - **LD** = HPL with ply rim
   - **D** = Plywood
   - **W** = Wood with wood rim
   - **BPG** = Back-painted glass
   - **SS** = Solid surface with self rim
3. **Rim profile (omit for plywood (D) and back-painted glass (BPG))**:
   - **P** = Softened vinyl rim (LL or L)
   - **E** = Flat ply rim (LLD or LD)
   - **F** = Softened wood rim (W)
   - **A** = Radius rim (SS)

## Coffee Table Top

<td>$1695</td>
</tr>
</tbody>
</table>

*Coffee table frame must be specified separately. See page 7.49.

Tops are ¾” thick. Exception: Back-painted glass is 15/32” thick and solid surface is 17/32” thick.
## Table Applications
### Coffee Table, Work Table, and Standing-Height Mobile Frames

**How to Specify**

1. **Frame**
   - **Model**
   - **Leg shape (omit for standing-height mobile frame):**
     - S = Square leg
     - R = Round leg
     - D = D leg
   - **Leg shape (omit for standing-height mobile frame):**
     - S = Square leg
     - R = Round leg
     - D = D leg
   - **Leg shape (omit for standing-height mobile frame):**
     - S = Square leg
     - R = Round leg
     - D = D leg
   - **Leg shape (omit for standing-height mobile frame):**
     - S = Square leg
     - R = Round leg
     - D = D leg
   - **Leg shape (omit for standing-height mobile frame):**
     - S = Square leg
     - R = Round leg
     - D = D leg
   - **Leg shape (omit for standing-height mobile frame):**
     - S = Square leg
     - R = Round leg
     - D = D leg
   - **Leg shape (omit for standing-height mobile frame):**
     - S = Square leg
     - R = Round leg
     - D = D leg

2. **Frame leg material:**
   - P = Metal frame/metal legs
   - PW = Metal frame/wood legs
   - (applicable to coffee table frame D legs only)

3. **Frame paint group**
   - STD = Group 1
   - STD2 = Group 2 (+20%)

4. **Frame paint designator**

5. **Wood finish price group (include for wood leg models only):**
   - STD = Group 1
   - STD2 = Group 2 (+20%)

6. **Wood finish designator (include for wood leg models only)**

7. **Caster designator:**
   - C47 = Black/silver

# Benching Applications

## Rectangular Tops

### Standard Includes

- **Top**

### How to Specify

1. **Model**
2. Material/rim material:
   - **LL** = TFL with vinyl rim
   - **LLD** = TFL with ply rim
   - **L** = HPL with vinyl rim
   - **LD** = HPL with ply rim
   - **W** = Wood with wood rim
   - **D** = Plywood
3. Rim profile (omit for plywood (D)):
   - **P** = Softened vinyl rim (LL or L)
   - **E** = Flat ply rim (LLD or LD)
   - **F** = Softened wood rim (W)
4. Grommet/cut-out option:
   - **X** = None
5. Surface finish price group (include for HPL (L), HPL with ply rim (LD), and wood (W) models only):
   - **STD** = Group 1
   - **STD2** = Group 2 (+20%)
6. Surface finish designator
7. Rim finish designator (omit for wood (W) and plywood (D) models)

## Available Finishes

- **G1 Grommets:**  
  - MB Matte Black
  - 405 Designer White
  - 487 Brushed Nickel
  - 490 Polished Nickel
  - 501 Platinum Metallic
  - 514 Carbon Metallic
  - 544 Silver Pearl

## How to Specify

### Grommets

1. Insert the location and finish designator into model number sequence as indicated on the pricing page.

### Cut-Outs

1. Insert the location designator into model number sequence as indicated on the pricing page.

**IMPORTANT:** Only the grommet and cut-out locations shown in the matrix at left with a designator and price are available as standard.

See page 7.23 for complete description of grommet and cut-outs.

</table>

**IMPORTANT:** Specify frame to match the depth and width dimensions of the benching top.

Mid-leg extension assembly is offered in square leg option only. Leg is inset relative to the position of the legs on the starter frame and end leg.

---

## Standard Includes

- Frame
- Adjustable glides
- Attachment hardware

## How to Specify

**Starter Frame or End Leg**

1. **Model**
2. **Leg shape:**
   - For starter frame—
     - FS = Square leg
     - FR = Round leg
     - FD = D leg
     - AFDA = A-Frame D leg
   - For end leg—
     - S = Square leg
     - R = Round leg
     - D = D leg
     - ADA = A-Frame D leg
3. **Frame/leg material:**
   - P = Metal frame/metal legs
   - PW = Metal frame/wood legs (applicable to D legs and A-frame D legs only)
4. **Frame paint group:**
   - STD = Group 1
   - STDM = Group M (+10%)
   - STD21 = Group 21 (+10%)
5. **Frame paint designator**
6. **Wood finish price group (include for wood leg models only):**
   - STD = Group 1
   - STD2 = Group 2 (+20%)
7. **Wood finish designator (include for wood leg models only)**

---

**Mid-Leg Extension Assembly**

1. **Model**
2. **Frame paint group**
   - STD = Group 1
   - STDM = Group M (+10%)
   - STD21 = Group 21 (+10%)
3. **Frame paint designator**

= Accent TFL areas on applicable models.

### Standard Includes

- Attachment hardware

### How to Specify

1. Model
2. Material:
   - LL = TFL
   - WLL = Wood with TFL accent
   - W = Wood
3. Wood finish price group (include for W and WLL models only):
   - STD = Group 1
   - STD2 = Group 2 (+20%)
4. Laminate or wood finish designator
5. Laminate designator for vertical panels (include for WLL models only)
6. Bracket paint group:
   - STD = Group 1
   - STDM = Group M (+10%)
   - STD2 = Group 21 (+10%)
7. Bracket paint designator
8. Resin designator (include for sliding door models only)
   - 25 = Glacier
### Standard Includes
- Attachment hardware
- Shelves (3 on each end and 3 in middle section): metal or glass

### How to Specify
1. Model
2. Material:
   - **LL**: TFL
   - **WLL**: Wood with TFL accent
   - **W**: Wood
3. Wood finish price group (include for W and WLL models only):
   - **STD**: Group 1
   - **STD2**: Group 2 (+20%)
4. Laminate or wood finish designator
5. Laminate designator for vertical panels (include for WLL models only)
6. Paint group (include for metal shelves model only)
   - **STD**: Group 1
   - **STD M**: Group M (+10%)
   - **STD 21**: Group 21 (+10%)
7. Paint designator for shelves (include for metal shelf model only)
   - **STD**: Group 1
   - **STD M**: Group M (+10%)
   - **STD 21**: Group 21 (+10%)
8. Bracket paint group:
   - **STD**: Group 1
   - **STD M**: Group M (+10%)
   - **STD 21**: Group 21 (+10%)
9. Bracket paint designator
10. Glass pattern designator (include for glass shelf models only)
    - **3**: Clear

Conferencing Applications

Rectangular and Boat

### Standard Includes
- **Top**: 120" and 144"W models ship in two pieces.

### How to Specify

#### Model
1. **Material/rim material**:
   - LL = TFL with vinyl rim
   - LLD = TFL with ply rim
   - L = HPL with vinyl rim
   - LD = HPL with ply rim
   - W = Wood with wood rim
   - D = Plywood
   - SS = Solid surface with self rim

#### Rim profile (omit for plywood (D)):
- P = Softened vinyl rim (LL or L)
- E = Flat ply rim (LLD or LD)
- F = Softened wood rim (W)
- A = Radius rim (SS)

#### Cut-out option:
- X = None

#### Surface finish price group (include for HPL (L), HPL with ply rim (LD), and wood (W) models only):
- STD = Group 1
- STD2 = Group 2 (+20%)

### Rectangular

**IMPORTANT**: Specify conference top to match the depth and width dimensions of the conference frame.

Tops on this page are for use with KORE bases only.

Conference tops are not available in glass.

Tops are 3⁄4" thick.

*Exception: Back-painted glass is 5⁄16" thick and solid surface is 11⁄16" thick.*

Felt, if selected, will be on the worksurface side of the cabinet only.

Felt, if selected, will be on the worksurface side of the cabinet only.

How to Specify

1. Model
2. Material:
   - LL = TFL
   - FMLL = TFL with felt in the middle section
   - FTLL = TFL with felt on the upper half
   - W = Wood
   - FMW = Wood with felt in the middle section
   - FTW = Wood with felt on the upper half
3. Pull option:
   - See page 7.19 for designators (no upcharge; pull must be specified for slide-out models)
4. Lock option:
   - KRB = Key random, black core (+$69)
   - KRS = Key random, silver core (+$69)
   - KS = Key specific (+$41); specify lock core separately
   - X = Non-locking
5. Storage wood finish price group (omit for TFL models):
   - STD = Group 1
   - STD2 = Group 2 (+20%)
6. Storage wood or TFL finish designator
7. Attachment bracket paint group:
   - STD = Group 1
   - STDM = Group M (+10%)
   - STD21 = Group 21 (+10%)
8. Attachment bracket paint designator
9. Felt color designator, if applicable
10. Shelf paint group:
    - STD = Group 1
    - STDM = Group M (+10%)
    - STD21 = Group 21 (+10%)

1. Model
2. Finish designator:  
   - 462 = Cinder  
   - 405 = Designer White

**USB Receptacles**

1. Model
2. Finish designator:  
   - 462 = Cinder  
   - 405 = Designer White
4-Trac® Power and Data Components

Standard Includes

Hardwire Power In-Feed
- Black liquid tight conduit
- 6’ black power cord
- Modular connector on one end
- Pigtail for hardwiring to building power on the other end

Hardwire Power In-Feed for New York City/San Francisco
- Metal conduit
- 6’ black power cord
- Modular connector on one end
- Pigtail for hardwiring to building power on the other end

Hardwire Rotating Power In-Feed
- Modular end accepts 72” jumper (KCE4TJ72) for quick disconnect from wall
- Replaces standard wall outlet

Hardwire Rotating Power In-Feed with Quick Disconnect
- Modular end accepts 72” jumper (KCE4TJ72) for quick disconnect from wall
- Replaces standard wall outlet

Power In-Feed with Plug
- Right-angle 20-amp plug
- Modular end connects to modular power kit
- For single-circuit application only
- 10’ overall length

Bench-to-Bench Jumpers
- Black liquid tight conduit
- Modular connectors on both ends

Jumper
- Two duplex receptacles with connecting black liquid tight conduit

Modular Power Kit
- Two duplex receptacles with connecting black liquid tight conduit

*IMPORTANT: Woodgrain laminate is a commercially compatible match to the wood finish of the same name and designator with consideration for the most common application—laminate surfaces on a wood chassis. When laminate and wood are mixed in other applications, the flip that occurs naturally in veneer may influence the overall match from piece to piece.*

Customer-specified laminate is available on:
- HPL worksurfaces
- HPL privacy screens
- HPL center screens

*See the Surface Materials Reference Guide.*

---

See the Kimball Surface Materials Reference Guide at www.kimball.com for a complete overview of the Kimball materials program, including:
- Characteristics of wood
- Special wood finishes
- Customer-specified laminate (CSL)
- Customer-specified paint (CSP)
- Fabric application and colorways
- Customer’s own material (COM) overview
- Alliance program
- TB133 process

---

### Fabric

**Applies to:**
- Side-to-side surface dividers
- Framed fabric screens
- Utility cart tackboards

**Kimball Panel Fabric**

Price Grades A–E

> See the Surface Materials Reference Guide at www.kimball.com for the most up-to-date list of available panel fabric patterns.

**Kimball Seating Fabric**

(Upholstery)

Price Grades 1–7

EXCEPTIONS: Not available in vinyl, faux leather, or polyurethane patterns.

> See the Surface Materials Reference Guide at www.kimball.com for the most up-to-date list of available seating fabric patterns.

### Upholstery

**Applies to:**
- Mobile carts with fabric seat
- Back cushions for seat cart with storage
- Seated cart with fabric cushion
- Tri-pod divider screens
- Fabric screen carts with storage

**Kimball Seating Fabric**

Price Grades 1–7

> See the Surface Materials Reference Guide at www.kimball.com for the most up-to-date list of available seating fabric patterns.

### Wool Felt

**Applies to:**
- Small shelves
- Mobile work carts, end panels, storage cabinets, and cubbies

**How to Use this Table**

1. Locate the model number
2. Select yardage from the appropriate column.

See the Kimball Surface Materials Reference Guide at www.kimball.com for COM policy and additional information.

**COM Yardage Requirements**

Kimball has analyzed each model to most accurately reflect the yardage requirements. Fabric is railroaded on bench screens, seat cushions, and back cushions.

The yardage requirement for each model is listed for 66"W directional, 66"W non-directional, and 54"W directional, where applicable.

Kimball has analyzed each model to most accurately reflect the yardage requirements. Fabric is railroaded on bench screens, seat cushions, and back cushions.
