fixt brings a timeless style to the workplace where design and unparalleled quality meet. Select from occasional tables, work tables, and bookcases in a variety of sizes and heights.

**Tops, shelves and seats** are specified separately from frames. They are available in TFL, HPL, wood veneer, plywood, or butcher block.

**Bookcase extension frame** attaches to a same-height bookcase frame. Multiple extension frames can be attached to a single bookcase frame to create an unlimited run of storage.

**Bench seat tops** are available in wood, laminate, or with an upholstered, cushion-top.

**Occasional tables** are available in three sizes and two heights.

**Bench seat frames and tops** are available in multiple widths to accommodate one or more people.

**Frames** are 1”-thick, tube steel and are shipped knocked down. Available in paint or clear coat. Note: If clear coat is selected, handling marks, scuff marks, and seam lines will be visible, which are characteristics of raw tube steel.

**Mobile option**, available for standing-height and meeting-height frames, makes reconfigurability of any space effortless and supports flexible landscapes. Mobile models feature 4” locking casters.

**Stools** are available for use with standing-height tables.
Details

**fiXt tops for use with standing-and meeting-height table frames** are available in:
- 1⅛”-thick thermally-fused laminate (TFL)
- 1⅛”-thick high-pressure laminate (HPL)
- 1⅛”-thick wood veneer
- 1⅛”-thick plywood
- 1⅝”-thick butcher block

**fiXt shelves for use with bookcase frames** are available in:
- 1”-thick thermally-fused laminate (TFL)
- 1”-thick high-pressure laminate (HPL)
- 1”-thick wood veneer
- 1”-thick plywood
- 1”-thick butcher block

**Butcher block tops and shelves** are fabricated from 1”W solid wood planks that run the full length of the top. The planks are laid-up in a random-grain orientation, allowing some sap, mineral heartwood, and other natural variations to create visual interest. These natural variations are to be expected. Butcher block tops and shelves feature a clear, semi-open pore finish with a satin sheen that highlights the natural color and grain variation of solid wood. Available in cherry, maple, oak and walnut wood species.

**Factory-installed grommets and cut-outs** are available as an option in pre-determined locations; upcharge applies.

**Cushion tops for benches and stools** have a unique X design sewn into the fabric and a welt cord along the outside edges. Note: Leather is not available on 66”, 78”, and 90”W models due to the usable surface area of hides.

**Connections**

**Hardware** to attach the top or shelf to the frame ships standard with the top or shelf.

**fiXt tops and shelves** are designed to be specified with specific frames as listed in this price list section by top size. They are not to be used with frames or bases from other series.

**Related Products**

**Grommets** are also available for field installation in tops.

IMPORTANT: Woodgrain laminate is a commercially compatible match to the wood finish of the same name and designator with consideration for the most common application—laminate surfaces on a wood chassis. When laminate and wood are mixed in other applications, the flip that occurs naturally in veneer may influence the overall match from piece to piece.

Kimball has analyzed each model to most accurately reflect the COM/COL yardage requirements shown at right. The yardage requirement for each model is based on 54”W fabric and cutting the fabric up the roll.

For widths other than 54”, increase the yardage requirement by the factors below:

<table>
<thead>
<tr>
<th>Fabric width</th>
<th>Increase yardage</th>
</tr>
</thead>
<tbody>
<tr>
<td>50”–53”</td>

</tr>
<tr>
<td>48”–49”</td>
<td>30%</td>
</tr>
<tr>
<td>45”–47”</td>
<td>45%</td>
</tr>
</tbody>
</table>

When ordering 10 or more models in the same COM, yardage requirements may be reduced.
