Guide™ is a collection of flexible furniture that supports a range of formal and informal instruction styles.

Instructor desk with tower lectern supports standing lectures and seated work. Ships ready to assemble.

Pedestals on instructor desk and lectern are available in metal or TFL, and in hinged door and open/file configurations.

Podium tops on instructor desk and lectern are 1/2"-thick, 3-ply, balanced construction and available in high-pressure laminate (HPL), thermally fused laminate (TFL), or writable laminate with a self-laminate edge.

Utility table is comprised of a utility table top and mobile blade base, specified separately. Top nests in to the end of Guide instructor desk.

Utility table top and instructor desk worksurfaces are 1 3/16"-thick, 3-ply, balanced construction and available in high-pressure laminate (HPL), thermally fused laminate (TFL), or writable laminate with softened vinyl rim.

Accessory options include:
- Surface power ports
- Surface grommets
- Wire trough
- Cable management

Legs with locking casters move easily to quickly set up room configurations to suit your instruction style.
**Instructor Desks**

**Details**

Instructor desks are comprised of a desk worksurface, podium top with column, T-legs, modesty panel, and pedestal.

Desk worksurfaces are 13⁄16”-thick, 3-ply, balanced construction and available in high-pressure laminate (HPL), thermally fused laminate (TFL), or writable laminate.

Fixed-height mobile T-legs mount to the underside of the top and pedestal with a fixed steel plate.

Column and foot for T-legs are available in matching or contrasting powdercoat finishes. Foot is also available in polished aluminum at no upcharge.

T-leg column and podium column are 23⁄8”-diameter, 10-gauge, tubular steel.

Non-hooded, locking casters are available in:
- Black
- White/grey

Pedestals are offered in metal and TFL, and in hinged door and open/file configurations. Locking is optional; if specified, lock is available keyed randomly or keyed specific.

**Planning Factors**

Undersurface support rail, model 75K42WSSR, is recommended for 72” instructor desks when printers, CPUs, or other heavy-load office equipment will be on the worksurface.

**Power & Cable Management**

Factory-installed grommets (G1 and G19) and cut-outs (C6) are available as an option in predetermined locations. [See page 6.5.]

- **C6 cut-out** are for use with:
  - Node® power center (KCEBN20PP)
  - Node® power/USB center (KCEBN11PU)

- **G1 plastic grommet** is a two-piece unit with snap-in lid. Lid cutout slides open to route cables or can be closed when not in use. Available in:
  - SL  Silver
  - MB  Matte Black

- **G19 metal grommet** is a two-piece unit with black brush access. Top locks in place. Powdercoat finish in the following colors:
  - 405 Designer White
  - 501 Platinum Metallic
  - 514 Carbon Metallic
  - 544 Silver Pearl

- **Cord access opening** is standard on the kneespace side of the pedestal below the worksurface.

**Related Products**

- **Leg Cord Manager**: fits blade bases to hold cords and cables being routed from the floor to the top. These clips snap onto the column; no installation hardware is required. Available in silver or clear plastic. Set of 3. [See cable management accessories in the Dock Training chapter of the Kimball Meeting & Collaboration Price List.]

- **Perks Loop-Style Undersurface Cable Manager**: organizes cords and cables under tops. Cables pressure fit into individual loops. Openings are 1”D x 5⁄8”W x 1”H and can be removed to expand capacity. Black plastic. Set of 6. [See the Perks chapter of the Kimball Desks & Accessories Price List.]

- **Perks Flexchain and Expandable Cable Manager**: manages cables and attaches to the underside of top to route cables and cords to the floor. [See the Perks chapter of the Kimball Desks & Accessories Price List.]

### Available Finishes

G1 Plastic Grommets:
- SL Silver
- MB Matte Black

G19 Metal Grommets:
- 405 Designer White
- 501 Platinum Metallic
- 514 Carbon Metallic
- 544 Silver Pearl

### How to Specify

1. Insert the location and finish designator (for grommets) into model number sequence as indicated on the corresponding pricing page.

Note: Specify grommet location and finish together in one step without a space between the location and the finish designators.

For example:
- G1LMB = G1 grommet, left, matte black
- G19R501 = G19 grommet, right, platinum metallic

IMPORTANT: Only the grommet and cut-out locations shown in the matrix at left with a designator and price are available.

<td></td>
</tr>
</tbody>
</table>

#### How to Specify

Specify pull option and finish together in one step. For studio and wisp pulls, put the pull and finish designators together with a space or underscore. For arc pulls, put the pull and finish designators together without a space or underscore.

Examples:

- **89_405** = Studio pull, Designer White
- **ARC501** = Arc, Platinum Metallic

---

**Paint Finishes:**

- **405** Designer White
- **462** Cinder
- **501** Platinum Metallic
- **514** Carbon Metallic
- **544** Silver Pearl

**Boring Pattern:**

- **192 mm**

**Pull Size:**

</tr>
<tr>
<td>Change Key</td>
<td>$9</td>
</tr>
<tr>
<td>Master Key</td>
<td>$15</td>
</tr>
</tbody>
</table>

**Key Random Option:**
When key random option is selected, key numbers will be assigned arbitrarily at the factory with key numbers ranging from KCCB001 to KCCB300 (black) or KCCG001 to KCCG100 (silver). Randomly numbered lock core(s) will ship standard along with your order for field installation.

**Key Specific Option:**
When key specific option is selected, the storage unit will be pre-drilled to accept a lock core; however, no lock cores will be shipped standard with the unit. If lock cores are standard on the unit, the price of the unit is reduced by the price of the lock core or cores.

You must specify lock core(s) separately for key specific option; specify any key number from KCCB001 to KCCB300 (black) or KCCG001 to KCCG100 (silver).

**Standard key** that ships with the lock core can be used for the initial installation of the lock core in the field.

**Change key model KCCB1CK** allows removal of lock cores within these key ranges:
- KCCB001–KCCB300
- KCCG001–KCCG100

**Master key model KC2GMK** will unlock any lock within these key ranges:
- KCCB001–KCCB300
- KCCG001–KCCG100

**IMPORTANT:** A change key, specified separately, is required to remove lock cores in the field.

**Change Key**
- KCCB1CK

**Master Key**
- KC2GMK

---

**Instructor desks and lecterns** can be specified as:
- Non-locking (standard)
- Key random
- Key specific

Lock cores are shipped separately for field installation.

**Black lock cores** and black hinged keys are identical to the ones available on the following Casegoods products:
- Definition
- Priority
- Transcend

**Silver lock cores** are matte nickel and have black hinged keys. These lock cores and keys are identical to the ones available on the following products:
- Definition
- Fluent
- Priority

With random keying, different furniture units may or may not have the same key number. If you must have all locks keyed differently or all locks keyed the same, choose the key specific option.

To key all the furniture units in a workstation or department alike, choose the key specific option and order the quantity of locks needed for your installation.

---

**Instructor Desks & Lecterns**

Kimball Meeting & Collaboration

Page 6.7

---

Guide

Kimball Meeting & Collaboration

---

**How to Specify**

1. Specify exact key number for lock cores as the model number or model number for change or master key.

## Instructor Desks

### Hinged-Door Pedestal

### Standard Includes
- Top: TFL, HPL, or writable laminate with 1/8” softened vinyl rim
- Pedestal with wire access hole: TFL or painted metal
- Modesty panel: resin (25 Glacier)
- Podium top with 2mm laminate self-edge band
- Base with casters: metal

### How to Specify

1. **Model**
2. **Top material:**
   - LL = TFL
   - L = HPL
   - M = Writable laminate
3. **Pedestal material:**
   - LL = TFL
   - P = Painted metal
4. **Rim profile:**
   - P = Softened vinyl
5. **Pull option:**
   - ➤ See page 6.6 for designators.
6. **Lock option:**
   - X = Non-locking
   - KRB = Key random, black core (+$69)
   - KRS = Key random, silver core (+$69)
   - KS = Key specific (+$41); specify lock core separately
7. **Grommet/cut-out options:**
   - X = None
   - ➤ See page 6.5 for designators.
8. **Top finish price group (include for HPL only):**
   - STD = Price Group 1
9. **Top finish designator**
10. **Resin designator:**
    - 25 = Glacier
11. **Pedestal finish price group (include for painted metal only):**
    - STD = Price Group 1
12. **STD = Metallic paint (+10%)**
13. **Pedestal finish designator**
14. **Rim finish designator**
15. **Column finish designator**
16. **Foot finish designator**
17. **Caster finish designator:**
    - C45 = Black
    - C46 = White/Grey
