Swiss architect Daniel Korb designed KORE Work Carts to support the different ways we work and interact. Creating a sense of community is important, but just as important is recognizing the needs of the individual. Today’s generation of workers expect the workplace to be informal, flexible and healthy, with a balance of privacy and collaboration within the environment to support their changing needs. That is why the starting point of the design of KORE Work Carts is human needs, simplicity and added value.

With a largely mobile workforce, there is a change from individual “ownership” of workspace to a shared “usership” of the workspace.

Today we need simple products that can quickly adapt and adjust to the needs of the individual and the needs of the organization.

KORE Work Carts address a variety of needs and offers choices. The quick customization and mobility allow for a fluid workspace that can rapidly expand, contract, reconfigure, or even relocate at a moment’s notice.

KORE Work Carts provide the right tools to support today’s evolving environments.
Today, the need for mobility translates into versatility and flexibility. The KORE Work Cart is a mobile workstation that provides privacy plus efficiency while maximizing space. A rechargeable battery enables technology integration without being constrained to a single location, while pneumatic height adjust transfers the work area from sitting to standing simply, and without any power requirement.

FLEXIBLE WORKSPACE

Reconfiguration is quick and easy for collaboration and group work.

Supports quiet concentration for individual focus.
**STATEMENT OF LINE**

**MOBILE WORK CARTS**

- Fixed-Height Work Cart
  - Shown without Accessory Rail
- Adjustable-Height Work Cart
  - Shown with Accessory Rail
- Work Cart with Grid Panels
  - Shown with Accessory Rail
- Work Cart with Storage Cabinets
  - Shown with Accessory Rail, Markerboard and Tackable Felt

**STORAGE**

- Open-Shelf Storage Cabinet
- Hinged-Door Storage Cabinet
- Open-Shelf with Hinged-Door Storage Cabinet
- Open-Shelf with Slide-Out Storage Cabinet

**TACKABLE FELT**

- No Felt
- Felt in the Middle Section
  - Shown with Markerboard
- Felt in the Upper Half
  - Shown with Markerboard Back
- Felt on Back

**ACCESSORIES**

- Utility Cup Holder
- Crank
- Picture Frame
- Name Plate
- Wavy Shelf
- File Organizer
- Sit-on-Surface Cubby
  - Shown with Felt
- Understructure Cubby
  - Shown with Felt

**MOBILE CARTS**

- Open Utility Cart
  - Shown with Accordion Panel and Markerboard
- Seat Cart
- Seat Cart with Open Storage
  - Shown with Sliding Door and Tufted Black Cushions
- Media Cart
  - Shown with Sliding Door

- Screen Cart with Storage
  - Shown with Fabric
- Magnetic Markerboard Cart
  - Shown with Magnetic Marker/Eraser Holder
- Wardrobe Cart
- X Frame with Round Legs
  - Available in Metal. Also available with Square Legs & D Legs

**MOBILE TABLES**

- Work Desk
  - Shown with Midlevel Panel
- Standing Height Table
- Occasional Height Multi-Purpose Table
- X Frame with Round Legs
  - Available in Metal. Also available with Square Legs & D Legs

**FABRICS**

- Rechargeable battery not included
