### Kimball Announces New Product Introductions That Diversify Their Portfolio

JASPER, IN (October 11, 2021) – Kimball’s newest product launches and enhancements are specifically designed to accommodate the unprecedented ways the workplace is changing. From a new architectural framework that can morph into single workstations or large, open plan office-scapes to acoustical panels for privacy to seating and table additions, Kimball’s introductions are all-encompassing. [Download High Res Images](#)

#### [EverySpace™](#)

As the modern workplace changes, EverySpace offers adaptable architecture that supports users throughout their day. This modular platform combines personal elements with functional solutions to compose workstations for any situation. EverySpace is a comprehensive solution that puts the user at the center of its design. It can

flex and flow as needs change and work styles evolve. Scalable by nature, its customizable platform is only limited by your imagination. EverySpace is a creative framework for the future. Designed by CSD Studio.

#### [Paradolia™](#)

Paradolia screens and suspension panels offer a contemporary solution that creates privacy and reduces acoustical distractions. Its soft contours contribute to a warm atmosphere while providing a tackable surface. The A-frame screens divide space while serving as a collaboration tool, and are easily nested for storage. The wall panels attach to a suspension rod with leather straps, providing functional sound absorption for walled environments.

### [Jelsen](#)<sup>TM</sup>

Designed by John Nelson, Sr. this collection of tables and stools features a distinct hourglass shape, providing a timeless design for any space. The tubular base features a dramatic bend that establishes its striking silhouette, then flows into a circular pedestal creating a juxtaposition between angular style and organic beauty. Jelsen is available in a variety of sizes, shapes, and heights.

### [Riffel](#)<sup>TM</sup>

From community spaces and welcoming areas to private offices, Riffel occasional tables are a gorgeous addition to any space. Its distinct, intersecting wood base protrudes upward to support either a round or a soft-square top. This exposed design creates an open and airy feeling that can easily integrate into any environment. Designed by pL-D.

### [Eager](#)<sup>TM</sup>

Adaptable to suit any environment, Eager offers task solutions with a variety of arm options, support features, mesh colors, and base and frame finishes. Its modern silhouette, stylish contours, and ergonomic functionality allow this seating collection to easily integrate into any situation.

In addition to these new introductions, Kimball has also enhanced two of their existing products. The [Melora](#)<sup>TM</sup> seating collection has been enhanced to include a conference arm option, further expanding its performance capabilities. By adding a half-back option to the [Joya](#)<sup>TM</sup> family of task seating, it offers a visually appealing, lighter scale solution that easily blends into expansive environments.

## **About Kimball**
