Kimball products available to ship within five or ten business days upon receipt of a credit-approved order. The Kimball Ready program has a limited weekly volume capacity, with orders being entered on a first come, first served basis. Consult your Customer Service Team for any seating order with more than 20 of a specific model.
HOW TO USE THIS PRICE LIST

Kimball has made every effort to make this price list accurate and complete with all of the information you need to specify our products.

We suggest that you become familiar with the format of this price list. You’ll find information about the product line, planning guidelines, pricing, and how to specify the product.

Statement of Line pages provide a snapshot of the entire product line. We’ve included illustrations, tables showing available sizes, and page cross references to the applicable pricing pages.

Surface material section shows the selections available.

Pricing pages list each model individually along with its list prices. How to Specify steps instruct you how to build a complete model that includes all of its options and materials.

See the applicable Kimball price list at www.kimball.com for complete production and planning.

See the Kimball Surface Materials Reference Guide at www.kimball.com for a complete overview of the Kimball materials program, including:
- Characteristics of wood
- Special wood finishes
- Customer-specified laminate (CSL)
- Customer-specified paint (CSP)
- Fabric application and colorways
- Customer’s own material (COM) overview
- Alliance program
- TB133 process

Dimensions provided in this price list are nominal. Products are manufactured to meet standard industry tolerances.

Illustrations and specifications contained in this price list are based on the latest product information at time of publication. Kimball reserves the right to make changes at any time without notice.

Standard product modifications are available on select products.

See the Product Modifications Solutions Price List at www.kimball.com

Items listed herein are considered by Kimball as portable furniture and as such are subject to local fire, electrical, and building codes applicable to portable furniture.

Only Underwriters’ Laboratory (U.L.) or Canadian Standards Association (C.S.A.) listed electrical components are used in electrical devices and are so labeled.

The customer is responsible for the proper application of products to the local codes under which installation must be made.

Further specifications are available on request.
HOW TO SPECIFY OUR PRODUCTS

Complete specifications are built by following a set of steps. These “How to Specify” steps are located in the far right column of each pricing page and are specific to the models found on that page. These steps will guide you in the proper order to specify the base model, materials, finishes, options, etc.

Base model numbers may be comprised of two or more steps. For concise presentation, some models numbers have been truncated within the pricing table.

• The steps numbered using a solid circle with a white number inside (e.g., 1, 2, or 3) make up of the base model number.
• Steps numbered using an outlined circle with black number inside (e.g., 4, 5, or 6) are required to complete the specification.

Sample Specification:
The example below shows a complete model number for a Definition arc-top double-pedestal desk.
The first three steps in this example comprise the base model number; the rest of the steps complete the specification.

DF3672DDFA W 1 B 93_490 KRC G19LR490 STD MH

Refer to the “standard includes” list to see what ships standard as part of the base model.

Follow these steps to build a complete model specification.

Options that incur an upcharge or decrease the base price are noted within the “How to Specify” steps.

Pricing Table Abbreviations:

D = Depth
W = Width
H = Height
T = Thickness
AO = Approach Overhang
ED = End Depth
KW = Kneespace Width
KH = Kneespace Height
WC = Worksurface Clearance

Electronic Catalog and Specification Software:

Kimball promotes the use of electronic drawing and specification tools to automate the furniture sales, design, and specification process. We provide our symbol and product information to industry leading design and specification software companies. We work closely with Configura to develop additional intelligent programming for our products in CET Designer. As noted in our Terms and Conditions, the customer bears the responsibility for order correctness.
Ordering Procedures:
Purchase orders must be received with complete information, which includes the following:
- Complete/valid model numbers
- All textiles, finish, and material specifications for each line item.
- “Ship to” address and contact
- Special shipping instructions (tagging, requested dates, etc.)
- Billing address
- Net prices
Submit orders electronically via EDI or OrderXchange.

To order literature or check order status on-line, please visit us at www.kimball.com.

The customer bears sole responsibility for order correctness. Orders are accepted only by issuance of Kimball’s formal order confirmation and are subject to the terms and conditions set forth herein, notwithstanding any variance in terms and conditions set forth on buyer’s order forms.

The order confirmation is the final agreement between the customer and Kimball and supersedes all prior oral, written or electronically transmitted statements regarding the order. Kimball will attempt to meet all requested ship or delivery dates. If no specific date is requested, we will assign the best possible ship date available.

Changes and Cancellations:
A confirmed order may not be changed or cancelled, in whole or in part, without prior written consent of Kimball. Expenses incurred because of the changes shall be charged to the Purchaser. In the event of cancellations, Purchaser will be liable for reasonable cancellation charges established by Kimball. Changes may affect delivery dates.

No changes or cancellations will be accepted after order entry for non-standard lead time products including:
- Kwik Office offerings
- Engineer-to-Order (modified or non-standard products)
- Alliance program upholstery
- Customer’s Own Material (COM)
- Customer’s Own Leather (COL)
- Customer Specified Laminate (CSL)
- Customer Specified Paint (CSP)
- Mock Ups
- Service Parts/Replacements

Modified Product:
Our manufacturing flexibility allows us to accommodate requests for non-cataloged product. We are happy to discuss your unique product requirements and determine feasibility and pricing.

Contact By Design for assistance at 800.482.1616 extension 6002.

Finishes and Materials:
Wood Finish Color Matching
Each piece of natural veneer offers unique texture and grain. Minor variations in finish color and value may occur due to the natural characteristics of wood. Kimball carefully selects all materials used in every product ensuring a commercially acceptable color and finish. Factors such as aging and exposure to light alter finishes.

Fabric Color Matching
Kimball will always ship a satisfactory commercial match on fabric. Because of industry dye-lot variation, colors may not match exactly.

Terms and Pricing:
Net 30 days. If the invoice amount is not paid in full within the terms of the invoice, the invoice may be subject to a monthly finance charge equal to the lesser of 1.5% or the highest amount permitted by law. List prices include freight charges; however, they do not include:
- Storage and insurance charges
- Sales and other taxes
- Local delivery, unloading, or installation
These items will be invoiced as separate line items.

Changes and cancellations will be charged to the Purchaser. In the event of cancellations, Purchaser will be liable for reasonable cancellation charges established by Kimball. Changes may affect delivery dates.

No changes or cancellations will be accepted after order entry for non-standard lead time products including:
- Kwik Office offerings
- Engineer-to-Order (modified or non-standard products)
- Alliance program upholstery
- Customer’s Own Material (COM)
- Customer’s Own Leather (COL)
- Customer Specified Laminate (CSL)
- Customer Specified Paint (CSP)
- Mock Ups
- Service Parts/Replacements

These items will be invoiced as separate line items.

All prices herein are delivered list price, unless noted, effective March 1, 2021, and supersede all other published prices. Prices shown cover standard product only; additional charges will be applied for changes to standard product. Kimball reserves the right to change prices without prior notice. Prices herein are only for shipment within the continental United States or Canada.

Selling Information
Distribution of this price list does not in itself constitute an offer to sell. Orders can be received only from authorized Kimball customers. Kimball price lists and catalogs are not available to the general public.

Product Design:
Kimball reserves the right to make changes in design, specifications, and construction or discontinue products without prior notice.

Shipping/Freight:
Products are priced and will be delivered C.P.T. one contiguous U.S. destination, one Canadian destination or one port of exit, freight prepaid (Incoterm 2010). Title shall transfer with risk of loss.

Kimball reserves the right to select the most appropriate shipping terms.
Delivery:

Normal delivery hours are 8:00 a.m. to 5:00 p.m. Monday through Thursday and 8:00 a.m. to 3:00 p.m. on Friday. Any delivery arrangements made outside of normal delivery times are subject to additional charges. See below.

Any charges incurred because of failure to receive a shipment or offload a shipment in a timely manner (maximum time allowed to offload trailer: 3 hours), will be billed to the sold-to customer.

Any charges as a result of rerouting a shipment while in transit will be billed to the sold-to customer.

Any order requiring Special Delivery Service will incur additional charges. All such requirements must be noted on the purchase order. These are services that are not included in the standard price of the product or require the usage of specialized carriers. These services include:
- Weekend delivery (after 3:00 p.m., Friday through Sunday evening)—minimum $500 charge.
- Inside delivery—minimum $50 charge.
- Non-dock delivery—minimum $50 charge.
- JIT delivery (specific day and/or time)—Orders under $25,000 list will incur a $125 charge.
- Rush delivery (1-3 days from ship date)—Contact Customer Service for charges.

Carrier Selection
Kimball reserves the right to select the most appropriate mode of shipment. Kimball relinquishes all responsibility for goods shipped upon a clean receipt from the carrier. Customer bears the risk of loss or damage during shipment.

Packaging
Kimball’s standard method of shipping is to carton all items. Certain full truck load shipments may qualify for special consideration. Contact Kimball for guidelines. International shipments can be crated at the customer’s request. The expense of crating will be the responsibility of the customer.

Palletizing
Kimball may elect to palletize key products on projects when it effectively reduces carton waste and improves stability within the shipment.

Loss, Damage, or Delay
Kimball shall not be liable for loss, damage, detention or delay resulting from causes beyond its reasonable control including but not limited to fire, strike, weather, wreck or delay in transportation. In the event of delay due to any such cause, the delivery date will be postponed by such length of time as may be reasonably necessary to compensate for the delay.

Storage
If the customer requests a change of ship date and the product is in production, Kimball reserves the right to transfer the product to storage at the customer’s risk and expense. All requests to store product must be approved by Kimball Customer Service and may be subject to storage fees. Such transfer to storage will be deemed delivery to the customer for all purposes including insurance, liabilities, invoicing, and payment.

Returned Merchandise
Merchandise will only be accepted for return under the following conditions:
1. The product is a “made to stock” item; and
2. Return Goods Authorization (RGA) is given to you by your Customer Service Team.

All returns are subject to a 50% restocking fee. All freight charges for returned product are the responsibility of the customer. Unauthorized returns will not be accepted and will be returned freight collect. All merchandise being returned must be properly packed and protected in the original cartons. Upon receipt, all returned merchandise will be thoroughly inspected. Any discrepancies, such as additional damage, signs of usage, missing parts, etc., will result in an adjustment to the amount of credit issued.

Claim Process:
All products produced by Kimball are carefully inspected and properly cartoned prior to shipment. All shipments are delivered to the transportation company in good condition. Kimball customer service will file the freight claims for you. Follow these easy steps:
1. Before signing for the merchandise, make notation of all visible damage, shortages and/or time of truck arrival on the bill of lading.
2. Contact Customer Service within 15 calendar days of delivery receipt to report issue. We will advise whether a freight claim will need to be filed based on mode of transportation.
3. If claim must be filed, carrier must be contacted within 15 calendar days of delivery. Retain all shipping cartons for inspection by the carrier agent.
4. A copy of the Carrier Disposition Letter must be sent to Customer Service to receive additional credit on concealed damage issues via Redistribution/ LTL carrier shipments.

For Concealed Damage, follow steps 2 through 4.
Our Pledge:
Kimball stands behind the craftsmanship of our products. When brought to our attention, we will address warranty issues quickly and effectively.

Recommendations:
Facilities managers and users are urged to make periodic inspections to look for signs of structural fatigue, damage or potential failure that may occur as a result of daily handling and use. Inspections should include the structural joints, corner blocks, screws or fasteners, welds, and any other points of stress. If any problems are found, the product should be taken out of service and Kimball Customer Service should be contacted promptly at 800.482.1717.

Limited Product Warranty:
Kimball warrants that its products are free from defects in materials and workmanship given normal use and care for a lifetime of single-shift workmanship given normal use and for seating up to 275 lbs. user weight. Kimball in North America after November 6, 2000, which falls under normal use as a result of such defect.

In the event that use of a product exceeds normal use as defined above, the warranty period for such product will be reduced to 12 years from date of manufacture, and the warranty for the product’s components that fall under different warranty limitations, as listed at right, will be reduced to one-third of the original warranty.

This warranty is made by Kimball to the original customer for as long as the original customer owns and uses the product.

This warranty is only valid if the products are given normal and proper use, and installed or used in accordance with Kimball installation and/or application guidelines, and installed by an authorized Kimball dealer or agent. Kimball assumes no responsibility for repairs to products sustaining damages resulting from user modification, attachments to a product, misuse, abuse, alteration, or negligent use of our products.

EXCEPT AS EXPRESSLY SET FORTH ABOVE, THERE ARE NO OTHER WARRANTIES EITHER EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE. WE EXCLUDE AND WILL NOT PAY CONSEQUENTIAL, PUNITIVE, OR INCIDENTAL DAMAGES UNDER THIS WARRANTY.

All warranties run from date of manufacture.

Warranty Periods:
Warranty periods are limited for certain products and/or component parts as follows:

10-Year Warranty
- Bingo® side chairs and stools
- Poly™ seating
- Poly™ seating
- Seating mechanisms and controls
- Veneers
- Laminate
- Pneumatic lifts (cylinder assembly)
- Lusso™
- Portata™

5-Year Warranty
- High-wear parts (such as casters, glides, drawer slides, moving chair arms)
- Xsede® and Priority™ height-adjust base mechanism and electrical control box
- Electrical/power products
- Inflatable lumbar supports
- Lighting
- Desk sets
- Monitor arms
- Keyboard kits
- Covering materials (such as foam, most textiles, 3D laminate, and decorative trim)
- Markerboards

3-Year Warranty
- Wool felt
- Custom products
- Carnegie fabrics
- Hello™ mesh
- Itsa™ mesh
- Joya™ mesh
- Wish™ mesh

1-Year Warranty
- Job™
- Markerboards
- Risers
- Spinning mechanisms
- Veneers
- Pulls
- Panel track
- Casters
- Drawer slides
- Parts and components for use in place of Kimball components
- Components not lasting the full warranty period

Warranty Exclusions:
This warranty does not cover:
- The substitution of non-Kimball components for use in place of Kimball components
- Naturally occurring variations and differences in grain character and color between and within wood species
- Natural variations in marble and leather
- Damage caused by a freight carrier
- Normal wear and tear arising from product use
- Damage resulting from improper use or storage of the product
- C.O.M. (Customer’s Own Material) or any other non-standard material specified by the customer, including attributes such as appearance, durability, quality, performance, colorfastness, etc.
- Alliance program fabrics
- Fabric, leather, and felt fading and wear, discoloration from contact with liquids or change in color or texture caused by application of finishes (flame proofing, stain resistance)
- Alterations to the product not expressly authorized by Kimball
- Products considered to be of consumable nature (such as bulbs, light ballast, and certain electronic products)

At its option, Kimball will repair or replace with comparable product, free of charge to the customer, any product, part or component manufactured and/or sold by Kimball in North America after November 6, 2000, which falls under normal use as a result of such defect.

Kimball will repair or replace with comparable product, any product, part or component manufactured and/or sold by Kimball in North America after November 6, 2000, which fails under normal use as a result of such defect.

At Kimball, we are proud of our environmental stewardship. We are committed to sustainable business practices and continuous improvement. It’s part of our heritage to take initiative, to reduce waste, to conserve energy, to commit fully, and to lead by example.

Throughout our more than 40 years of documented environmental actions, we have been a responsible steward of resources and have acted as an agent of sustainable change in our industry.

Design for the Environment is our approach to product development, providing lasting product solutions that benefit people through sustainable business practices.

Ultimately, the more we do in the area of sustainability, the more it helps you to achieve your environmental aims. Let us show you just how easy it is with Kimball.

ANSI/BIFMA level™
We offer one of the most sustainable portfolios in the industry, which includes systems, casegoods, tables, and seating.

LEED® Certification
Kimball offers furniture solutions which may contribute toward LEED® certification. The LEED Green Building Rating System™ is the nationally accepted benchmark for design, construction, and operation of high performance green buildings. Kimball has sought and received certification for the following facilities:

LEED-CI Silver:
- Chicago, IL showroom
- Washington, DC showroom

Indoor Air Quality
One of the largest contributions office furniture can make to a building’s LEED certification is indoor air quality via low-emitting products. Kimball tests and certifies many of our products to the ANSI/BIFMA e3 2014 standard credits (7.6.1, 7.6.2, 7.6.3).

Wood Finishes
Our proprietary wood finish system utilizes a combination of topcoats engineered for the various applications found in the furniture industry. It is exceptionally clear and durable, and allows the beauty of wood to show through. The durability, depth, clarity, and beauty of our wood finishes meet the high expectations customers have of Interwoven finishes, and meet or exceed indoor air quality (IAQ) standards.
The operating load capacities for various Kimball products shown in the table at right represent the BIFMA functional loads which are equivalent to loads that can be expected in normal use of the component.

All components meet or exceed the appropriate ANSI/BIFMA Functional and Proof Loading requirement tests:
- X5.5 2014 Desk/Table Products Test
- X5.6 2016 Panel Systems Test
- X5.9 2019 Storage Units Test

Square inches should be calculated using this formula: Surface depth x surface width of available storage. Cubic inches should be calculated using this formula: Surface length x surface depth x height of available storage above the surface (limited to 12 inches above the surface).

The tests at right were developed by the Business and Institutional Furniture Manufacturer’s Association (BIFMA) and approved by the American National Standards Institute (ANSI):

X5.4–2020 Public and Lounge Seating Tests

These performance tests determine the stamina of seating in its day to day use. Individual tests are described at right.

Generally, Kimball seating products within this price list meet or exceed the applicable ANSI/BIFMA standards:

ANSI/BIFMA chair testing does not serve as a warranty or guarantee.

X5.4.5 Backrest Strength Test (Horizontal):
Functional Load—A force of 667 N (150 lbf.) per seating position shall be applied simultaneously for one (1) minute.

5.4.2 Proof Load—A force of 1112 N (250 lbf.) per seating position shall be applied simultaneously for 10 seconds.

X5.4.6 Backrest Strength Test (Vertical):
Functional Load—A force of 890 N (200 lbf.) shall be applied simultaneously to each backrest position (as determined by the number of seating positions for one (1) minute).

6.4.2 Proof Load—A force of 1334 N (300 lbf.) shall be applied simultaneously to each backrest position for 10 seconds.

X5.4.7 Backrest Durability Test (Horizontal): The loading device shall be adjusted to apply a 334 N (75 lbf.) force to the backrest of each seating positions. When testing multiple seating units, the forces shall be applied simultaneously. A weight of 108 kg (240 lbf.) shall be secured in the center of each seating position. The loading device shall be cycled for 120,000 cycles.

X5.4.8 Backrest Durability Test (Vertical): The loading device(s) shall be attached to apply an initially vertical downward force, centered on the apparent weakest point at the top of the backrest(s). Apply a 890 N (200 lbf.) force uniformly through an area 406 mm ± 13 mm (16 in. ± 0.5 in.) long by not less than the thickness of the backrest. The loading device shall be cycled for 10,000 cycles.

X5.4.9 Arm Strength Test (Horizontal): A loading device or strap, not greater than 25 mm (1 in.) in horizontal width, shall be attached to the arm so that the load is initially applied horizontally to the armrest structure. The load shall be applied horizontally to the armrest structure that is forward of the backrest. The test shall be applied for 10 seconds.

X5.4.10 Arm Strength Test (Vertical): A loading adapter that is 127 mm (5 in.) long and at least as wide as the width of the arm shall be attached to the top of the armrest such that the load will be applied at the apparent weakest point of the armrest structure that is forward of the backrest.

Functional Load—For units with armrest width of greater than 75 mm (3 in.) a force of 890 N (200 lbf.) shall be applied for one (1) minute. Remove the force. For units with an armrest width of less than or equal to 75 mm (3 in.), a force of 750 N (169 lbf.) shall be applied for one (1) minute. Remove the force.

10.4.2 Proof Load—For units with an armrest width of greater than 75 mm (3 in.) a force of 1335 N (300 lbf.) shall be applied for 10 seconds. For units with an armrest width of less than or equal to 75 mm (3 in.), a force of 1125 N (253 lbf.) shall be applied for 10 seconds.

X5.4.11 Arm Durability Test (Horizontal): A loading device or strap, not greater than 25 mm (1 in.) in horizontal width, shall be attached to the arm so that the load is initially applied horizontally to the armrest structure. The load shall be applied at the apparent weakest point of the armrest structure forward of the unit backrest, but not closer than 25 mm (1 in.) from an unsupported edge.

Functional Load—For units with an armrest width of less than or equal to 75 mm (3 in.) a force of 890 N (200 lbf.) shall be applied for one (1) minute in the inward direction. For units with an armrest width of greater than 75 mm (3 in.) a force of 1335 N (300 lbf.) shall be applied for one (1) minute in the outward direction.

Proof Load—For units with a distance between the arms less than 889 mm (35 in.), a force of 445 N (100 lbf.) shall be applied for 10 seconds in the inward direction. For units with a distance between the arms greater than 889 mm (35 in.), a force of 890 N (200 lbf.) shall be applied for 10 seconds in the inward direction.
Public and Lounge Seating Tests, continued

X5.4.12 Arm Durability Test for Multiple Seating Units: The loading device shall be placed as close to the apparent weakest point of the armrest as possible, without extending beyond the front or rear of the arm. For arms less than 406 mm (16 in.) in length: The loading device shall apply a downward force, initially vertical, centered on the arm. Apply the force uniformly across a distance equal to the length of the arm. Apply a 667 N (150 lbf.) force at an appropriate rate between 10 and 30 cycles per minute. Apply and remove the force for 10,000 cycles.

X5.4.13 Arm Durability Test for Single Seat Units Angular:
Simultaneously apply a force of 400 N (90 lbf.) to each arm initially at a 10° ±1° angle as shown in Figure 13b. The arm loading device must follow the arm as it deflects or pivots. The fixture linking the arm loading device to the armrest pad shall stay in contact with the arm pad throughout the loading cycle. If using a test device similar to that shown in Figure 13a, the load application distance must initially be the length specified in the figure. Other methods of applying the load are acceptable if the force and angle applications are equivalent. The force shall be applied and removed for 60,000 cycles.

X5.4.14. Seating Durability Test:
A 406 mm (16 inch) diameter test bag weighing 57 kg (125 lb.) shall be attached to a cycling device, permitting a free fall to the seat as shown in Figure 14. The free fall shall begin after lifting the test bag 97 mm (3.8 in.) above its “at rest” position but not to exceed 36 mm (1.4 in.) above the uncompressed surface on the seat (as measured at the center of the seat). All seats not being cycled shall be loaded with 109 kg (240 lb.) of weight per seat. Each seating position shall be tested to 100,000 cycles.

X5.4.15 Drop Test (225/300 lb. 6 in.):
Functional Load—
a) The test bag shall be raised 152 mm (6 in.) above the uncompressed seat and released one (1) time. See Figures 15a and 15b.
b) Remove the bag and repeat setup and functional procedures for each remaining seating position.

X5.4.16 Leg Strength Tests:
Functional Load—A force of 334 N (75 lbf.) shall be applied once to each front leg individually for one (1) minute.

X5.4.17 Unit Drop Test: Lift one end of the unit to the specified height per Table 2 or to the balance point whichever comes first and allow it to drop freely so it lands squarely.

X5.4.18 Caster/Unit Base Durability Test: Place a 125 kg (275 lb.) load on the seat of the unit. The unit or unit base shall be cycled 500 cycles over the obstacles and then 25,000 cycles on a smooth, hard surface without obstacles. At the conclusion of cycling, a 22 N (5 lbf.) pull force shall be applied to each caster in line with the caster stem centerline.

X5.4.19 Swivel Test: A 125 kg (275 lb.) load shall be placed on the seat such that the center of gravity of the load is 51 mm, +13 mm, -0 mm (2 in., +0.5 in., -0 in.) forward or rearward of the center line of the spindle. The seat or platform shall rotate for 120,000 cycles.

X5.4.20 Tilt Mechanism Test:
A test load of 125 kg (275 lb.) shall be secured on the center of the seat. The unit shall be cycled for 200,000 cycles at an appropriate rate between 10 and 30 cycles per minute. The tilt mechanism should be checked and readjusted as needed to maintain the original conditions.

X5.4.21 Stability Test:
The same as X5.1.11

X5.4.22 Tablet Arm Load Ease Test: A 245 N (55 lb.) force applied through a 203 mm ±13 mm (8.0 in. ±0.51 in.) diameter area centered on the writing area of the tablet for a total of 100,000 cycles.

X5.4.23 Tablet Arm Load Test: Apply the load through a 203 mm ±13 mm (8.0 in. ±0.51 in.) diameter area 25 mm (1 in.) from the edge of the surface at its apparent weakest point. Apply a load of 68 kg. (150 lb.) at the location described in 23.3 b) for one (1) minute and remove the load.

Coat Hook
- Cinder finish
- Works with Xsite® Traxx®, slat tiles, wall-mount Traxx, Cetra®, and Interworks® EQ
- Use of coat hook with slat tiles requires the removal of end trim and trim channels before installation

Name/Sign Holder
- Platinum finish
- Includes mounting bracket for Xsite panels or slat tiles

Front-to-Back File Bars
- Black finish
- For use in Footprint® flat profile undersurface lateral file drawers, Fundamental®, and LF™ Series
- Set of two; one set required per drawer
- Provides:
  - 2 rows of letter or 1 row of legal in 30"W file
  - 2 rows of letter or 2 rows of legal in 36"W file
  - 3 rows of letter or 2 rows of legal in 42"W file

Side-to-Side File Bars
- Black finish
- For use in Footprint flat profile metal pedestals and file centers
- Set of two

**Standard Includes**

M2X Power/Data/USB/HDMI/VGA Center
- Four power outlets (2 per side)
- Two duplex USB charging ports (1 duplex per side)
- One HDMI port
- One VGA port
- Two blank data ports (1 per side)
- Voice/adapter kit to accept couplers and jacks
- Two 6' power cords, rated at 15amps 120 volts (1 per side)

E2X Power/Data Center
- Three power outlets with 72” power cord
- One VGA DB15HD female with 120” cable
- One USB 2-port simplex charger
- One open port

Side 1:
- Three power outlets with 72” power cord
- One VGA DB15HD female with 120” cable
- One USB 2-port simplex charger
- One open port

Side 2:
- Three power outlets with 72” power cord
- One USB 2-port simplex charger
- One HDMI coupler
- One open port

**Tips**

- All electrical accessories are available for field installation only.
- U.L. listed. Any field modification of the electrical components voids the U.L. listing.

➤ See the Kimball Accessories & Filing Solutions Price List for product and planning information.

PERKS® ACCESSORIES | LIGHTING
LED Task Lights

**Standard Includes**
- Starter Unit
  - Fixture
  - Two-piece 12' black cord with an inline 4 1/2"W x 2 1/8"D x 1 1/8"H 65-watt brick power supply and plug
  - Mounting kit

- Add-On Unit
  - Fixture
  - One 8" black interconnect cord
  - One 30" black interconnect cord
  - Mounting kit
  - Two adhesive managers

**Interconnect Guide**

<table>
<thead>
<tr>
<th>Task Light Length</th>
<th>Watts per Unit</th>
<th>Max. No. of Units</th>
<th>Total Watts</th>
</tr>
</thead>
<tbody>
<tr>
<td>17&quot;</td>
<td>8</td>
<td>6</td>
<td>48</td>
</tr>
<tr>
<td>31&quot;</td>
<td>18</td>
<td>3</td>
<td>54</td>
</tr>
<tr>
<td>44&quot;</td>
<td>26</td>
<td>2</td>
<td>52</td>
</tr>
</tbody>
</table>

**IMPORTANT:** Different task light lengths can be combined in the chain; however, the total wattage cannot exceed 54. For example, one 17" unit (8 watts) plus one 44" unit (26 watts) = 34 watts which is below the maximum.

**Tips**
- See the Kimball Accessories & Filing Solutions Price List for product and planning information.

## PERKS® DIVIDER SCREENS | SET-ON-SURFACE
### Polycarbonate | 24”H

**Pricing**

*Ships in 10 Days*

---

**Standard Includes**

- Screen: semi-opaque, fluted polycarbonate
- Clear U-channel edge molding on all sides of screen
- Metal brackets (feet) with clear rubber bumpers on bottom: paint

**Installation**

- Screen and brackets ship in the same box
- Remove protective film from screen
- Pressure fit screen into brackets and set in place

**Tips**

- When ordering both front and side set-on-surface screens, size down for side screens to avoid interference
- The number of brackets (feet) is determined by screen width

### How to Specify

1. **Model**
2. Bracket paint designator:
   - 462 = Cinder
   - 501 = Platinum Metallic

---

*PERKS® DIVIDER SCREENS | EDGE-MOUNT DIVIDER/MODESTY*  
Polycarbonate | 32"H

*Pricing*

*Ships in 10 Days*
**PERKS® DIVIDER SCREENS | EDGE-MOUNT DIVIDER/MODESTY**

**Polycarbonate | 38"H**

**Standard Includes**
- Screen: semi-opaque, fluted polycarbonate
- Clear U-channel edge molding on all sides of screen
- Metal edge-mount brackets: paint
- Attachment fasteners

**Installation**
- Screen and brackets ship in the same box
- Remove protective film from screen
- Attach brackets to the screen
- Use fasteners to attach to surface
- Two people recommended

**Tips**
- Fits on 13⁄16" and 19⁄16" worksurface thicknesses
- When ordering both front and side edge-mount screens, size down for side screens to avoid interference
- The number of edge-mount brackets is determined by screen width
- Wire gap bracket provides 3⁄4" gap for cord management

**How to Specify**
1. Model
2. Bracket application:
   - FL = Flush
   - WG = Wire gap (+$31)
3. Bracket paint designator:
   - 462 = Cinder
   - 501 = Platinum Metallic
**Standard Includes**
- Screen: semi-opaque, fluted polycarbonate
- Clear U-channel edge molding on all sides of screen
- Metal edge-mount brackets: paint
- Attachment fasteners

**Installation**
- Screen and brackets ship in the same box
- Remove protective film from screen
- Attach brackets to the screen
- Use fasteners to attach to surface
- Two people recommended

**Tips**
- Fits on 1\(\frac{1}{16}\)" and 1\(\frac{1}{8}\)" worksurface thicknesses
- When ordering both front and side edge-mount screens, size down for side screens to avoid interference
- The number of edge-mount brackets is determined by screen width
- Wire gap bracket provides 3\(\frac{1}{4}\)" gap for cord management

**How to Specify**
1. Model
2. Bracket application:
   - FL = Flush
   - WG = Wire gap (+$31)
3. Bracket paint designator:
   - 462 = Cinder
   - 501 = Platinum Metallic
## PERKS® DIVIDER SCREENS | CLAMP-MOUNT
Laminate (TFL) | 27”H

### Standard Includes
- Screen: 405 Designer White TFL with matching 2mm edgeband
- Metal clamp brackets: 501 Platinum Metallic

### Installation
- Brackets ship attached to screen
- Tighten thumb screw to secure to surface

### Tips
- Fits on 3/4” and 1 3/16” worksurface thicknesses
- Sized to avoid pinch points on height-adjust surfaces and when both front and side screens are specified
- 3/4” gap between screen and worksurface allows for cord management

Kimball Accessories & Filing Solutions Price List
See the Kimball Accessories & Filing Solutions Price List for product and planning information.
**UNIVERSAL METAL FILING**

*Locking Information*

---

**LF Series and Fundamental metal filing** can be specified as:

- Key random
- Key specific

Lock cores are shipped separately for field installation.

**Black lock cores** with black hinged keys are identical to the ones available on the following Casegoods products:

- Definition
- Priority
- Transcend

---

**Key Random Option:**
When key random option is selected, key numbers will be assigned arbitrarily at the factory with key numbers ranging from KSCD001 to KSCD025 (black).

Randomly numbered lock core(s) will ship standard along with your order for field installation.

---

**Key Specific Option:**
When key specific option is selected, the storage unit will be pre-drilled to accept a lock core; however, no lock cores will be shipped standard with the unit. If lock cores are standard on the unit, the price of the unit is reduced by the price of the lock core or cores.

You must specify lock core(s) separately for key specific option; specify any key number from KSCD001 to KSCD300 (black).

---

**Standard key** that ships with the lock core can be used for the initial installation of the lock core in the field.

**Change key model QKCCB1CK** allows removal of keys within these ranges:

- KSCD001–KSCD300

**IMPORTANT:** A change key, specified separately, is required to remove lock cores in the field.

---

**How to Specify**

- Specify exact key number for lock cores as the model number or model number for change or master key.

---

**Black Lock Core with Black Hinged Key**

How to Specify
1. Model

Front-to-Back File Bars
- Black finish
- For use in Footprint® flat profile undersurface lateral file drawers, Fundamental®, and LF™ Series
- Set of two; one set required per drawer
- Provides:
  - 2 rows of letter or 1 row of legal in 30"W file
  - 2 rows of letter or 2 rows of legal in 36"W file
  - 3 rows of letter or 2 rows of legal in 42"W file

Side-to-Side File Bars
- Galvanized finish

Drawer Divider
- Hooks on back of drawer body
- Can be used on any file
- Black finish

- 11 7/8" shelf openings when shelves are in center position
- Finished inset top
- Unfinished back

### Tips

➤ See the Priority chapter in the Kimball Desks & Workstation Solutions Price List for planning information.
### Locking Information

**Locking is optional** on all storage units. When locking is selected, locks can be specified as:
- Key random with a black lock core with black hinged key (KRB);
- Key random with a silver (matte nickel) lock core with black hinged key (KRS); or
- Key specific (KS)

**Black lock cores** with black hinged keys are identical to the ones used with other casegoods and systems products.

**Silver lock cores** are matte nickel and have black hinged keys. These lock cores and keys are identical to the ones used with Definition and Fluent series.

#### Key Random:
When key random option is selected, key numbers will be assigned arbitrarily at the factory with key numbers ranging from KCCB001 to KCCB300 (black) or KCCG001 to KCCG100 (silver).

Randomly numbered lock core(s) will ship standard along with your order for field installation.

#### Key Specific:
When key specific option is selected, the storage unit will be pre-drilled to accept a lock core; however, no lock cores will be shipped standard with the unit. If lock cores are standard on the unit, the price of the unit is reduced by the price of the lock core or cores.

You must specify lock core(s) separately for key specific option; specify any key number from KCCB001 to KCCB300 (black) or KCCG001 to KCCG100 (silver).

To key all the furniture units in a workstation or department alike, choose the key specific option.

#### Installing Locks:
Standard key that ships with the lock core can be used for the initial installation of the lock core in the field.

#### Changing Locks:
**IMPORTANT:** A change key, specified separately, is required to remove lock cores in the field.

Change key model KCCB1CK allows removal of lock cores within these ranges:
- KCCB001–KCCB300
- KCCG001–KCCG100

#### Master Keys:
Master key model KC2GMK will unlock any lock within these key ranges:
- KCCB001–KCCB300
- KCCG001–KCCG100

**How to Specify**
- Specify exact key number for lock cores or model number for change or master key

---

**Model/Key Range** | **Price**
---|---
**Black Lock Core with Black Hinged Key** | **Price**
KCCB001 to KCCB300 † | $28

**Silver Lock Core with Black Hinged Key** | **Price**
KCCG001 to KCCG100 † | $28

**Change Key** | **Price**
KCCB1CK † | $10

**Master Key** | **Price**
KC2GMK † | $16

† GSA Non-Contract
How to Specify

Specify pull option and finish together in one step, inserting an underscore between the pull designator and the finish designator.

Examples:
64_501 = Wisp pull, Platinum Metallic
89_462 = Studio pull, Cinder

Tips
➤ See the Priority chapter in the Kimball Desks & Workstation Solutions Price List for planning information.

Pull Options

64 Wisp*

89 Studio*

Finishes:
Paint —
462 Cinder
501 Platinum Metallic

Boring Pattern:
192 mm

Pull Size:
Width Height Projection
9 7/8" 5/8" 1 1/8"

*Suitable for ADA applications.
Available Finishes

G1 Grommets:
- MB Matte Black
- SL Silver

G19 Grommets:
- 405 Designer White
- 487 Brushed Nickel
- 490 Chrome
- 501 Platinum Metallic
- 514 Carbon Metallic
- 544 Silver Pearl

Tips

➤ See the Priority chapter in the Kimball Desks & Workstation Solutions Price List for planning information.

How to Specify

1. Insert the location and finish designator into model number sequence as indicated on the pricing page.

Note: Specify grommet location and finish together in one step without a space between the location and the finish designators.

For example:
- G1LM = G1 grommet, left, matte black
- G19R501 = G19 grommet, right, platinum metallic

IMPORTANT: Only the grommets locations shown in the matrix at left with a designator are available.

</table>

*Height (thickness) for TFL worksurfaces is \(\frac{1}{16}\)" less than HPL, making the overall height \(\frac{1}{16}\)" less than shown here.

**Actual weight of the worksurface, not shipping weight. Use to calculate the lifting capacity of the base and worksurface of the complete desk.

See Base Comparison chart in the Xsede Height-Adjust Desks chapter in the Kimball Systems Solutions Price List.
Available Finishes

G1 Grommets:
- MB  Matte Black
- SL  Silver

G19 Grommets:
- 487  Brushed Nickel
- 514  Carbon Metallic
- 490  Chrome
- 405  Designer White
- 501  Platinum Metallic
- 544  Silver Pearl

How to Specify

1. Insert the location and finish designator into model number sequence as indicated on the pricing page.

Note: Specify grommet location and finish together in one step without a space between the location and the finish designators.

For example:
- G1LMB = G1 grommet, left, matte black
- G19R501 = G19 grommet, right, platinum metallic

IMPORTANT: Only the grommets locations shown in the matrix at left with a designator are available.
**Tips**

**IMPORTANT:** All power/data centers must be specified separately for field installation.

➤ See the Perks Power & Data chapter in the Kimball Accessories & Filing Solutions Price List for product and planning information.

**How to Specify**

1. Insert the location designator into model number sequence as indicated on the pricing page.

**IMPORTANT:** Only the cut-out locations shown in the matrix at left with a designator are available.
**XSEDE® HEIGHT-ADJUST DESKS**

**T-Leg Base**

**Standard Includes**
- Base
- Control box
- 9’ power cord
- Standard up/down control switch
- Adjustable floor glides

**Tips**
➤ See the Xsede Height-Adjust Desks chapter in the Kimball Systems Solutions Price List for product and planning information.

**How to Specify**
1. Model
2. Paint designator:
   - 501 = Platinum Metallic

Side Chairs and Stools

Stackable Side Chairs with Arms
- 1½"-thick bentwood arm caps, finished to match the shell

Stackable Side Chairs without Arms
- Set of 2

Stackable Stools without Arms

Ganging Devices
- Set of 5 pairs (10)
- Black finish
- May be used to connect armless chairs or alternating armless and armchair models side by side; two armchairs cannot be ganged

Features
- Arm supports, legs, and cross members: chrome plated, tubular steel
- Molded beech plywood shell
- Rubber stack bumpers and tube closures
- Plastic glides: black
- Stackable up to 4 high

Tips
- Side chairs will be shipped four per carton when applicable
- Stools are ordered and shipped two per carton. Price shown is per carton. Both chairs in the carton will have the same shell color.
- One pair of ganging devices is required to gang two chairs. Two pairs will gang three chairs, a set of 5 pairs will gang 6 chairs.

➤ See the Bingo chapter of the Kimball Seating Solutions Price List for product and planning information.

How to Specify
Chair or Stool
1. Model
2. Finish designator for shell:
   - A = Amber wood finish on shell
   - E = Ebony paint on shell
   - W = White paint on shell

Ganging device

### Surface Materials Reference Guide

See the Surface Materials Reference Guide at www.kimball.com for a complete overview of the Kimball materials program, including:
- Characteristics of wood
- Special wood finishes
- Customer-specified laminate (CSL)
- Customer-specified paint (CSP)
- Fabric application and colorways
- Customer's own material (COM) overview
- Alliance program
- TB133 process

**IMPORTANT:** Woodgrain laminate is a commercially compatible match to the wood finish of the same name and designator with consideration for the most common application—laminates surfaces on a wood chassis. When laminate and wood are mixed in other applications, the flip that occurs naturally in veneer may influence the overall match from piece to piece.
VINYL (PVC)

Applies to:

- Xsede Height Adjust desk
- Dock Meeting round table top rim
- Priority worksurface rim
- Theo table top rim
- Footprint file tops for metal filing

Effective 07.19.21

Seating

Melora task chair has been added to the Kimball Ready offering.

Effective 06.21.21

Global

This price list has been renamed “Kimball Ready Solutions Price List” and has been reorganized to reflect the placement of product lines within the larger price lists.

Effective 05.24.21

General Information

Kimball phone number has been changed to 800.482.1717.

Effective 05.04.21

Perks

Dimensions for metal work tools have been corrected. For some models, the widths and heights were reversed.

Global

Minor text changes have been made throughout to reflect new price list titles in cross references.

Effective 02.15.21

General Information

BIFMA Compliant Participant information has been added. Effective 03.01.21.

Perks Divider Screens

Divider screens have been added to the Kimball Ready Solutions Price List.

Effective 02.01.21

Global

Pricing has been updated throughout the price list and will be effective on 03.01.21.

Effective 12.14.20

General Information

Warranty has been updated as follows:
- Wish (excluding Wish Classic) is warranted for 3-shift 24/7 service up to 300 lbs. user weight
- Lusso™ and Portata™ are covered under a 10-year warranty period.

Global

Kimball Ready Solutions Price List replaces the Kwik Office Price List and program.

Effective 11.23.20

General Information

Sustainability and ANSI/BIFMA pages have been updated to the most current information.
