Tools Required

- Phillips head screwdriver or power driver with Philips head bit

Hardware Required

- Fabric Screen Assembly (Qty. 2)
- End Frame Assembly (Qty. 2)
- Screw (Qty. 8)

Installation

1. Unbox Hardware
2. Unroll Screens
3. Place (1) End Frame Assembly upright and slide (1) screen end onto junction block as shown in Figure A
4. Insert and tighten (1) screw at this location
5. Repeat (4) times in each corner with both screen assemblies.
6. You will need to stretch the lower rail down in order to assemble as the screen needs to be taut.
