*PERKS® WORK TOOLS*

**Overview**

*Name/sign holders* are available for an aesthetically pleasing method of identifying and personalizing your workspace.

*Coat hook* helps keep your workspace clear for more usable space.

*Work tools*, available in metal or plastic, provide storage up off of the worksurface.

*Carousel trays and center drawers* provide convenient undersurface storage. Carousel trays rotate 360°.

*Hanging markerboard tile* hangs from Xsite Traxx, metal slat tiles, or lower mobile table screens. It can be moved easily around the workspace to keep the creativity flowing.

*Organizational tools*, such as pencil trays and drawer organizers, provide more functionality to storage units.

**Important:** Woodgrain laminate is a commercially compatible match to the wood finish of the same name and designator with consideration for the most common application—laminate surfaces on a wood chassis. When laminate and wood are mixed in other applications, the flip that occurs naturally in veneer may influence the overall match from piece to piece.

The Gallery program is an on-trend collection curated from trusted laminate suppliers. **See the Kimball Surface Materials Reference Guide at www.kimball.com for a complete overview of the Kimball materials program, including:**
- Characteristics of wood
- Special wood finishes
- Customer-specified laminate (CSL)
- Customer-specified paint (CSP)
- Fabric application and colorways
- Customer's own material (COM)
- Alliance program
- TB133 process

**See the Surface Materials Reference Guide at www.kimball.com for additional program details.**
