When it comes to today’s open office landscape, visual expression is more essential than ever. Whether it is a first impression or sustaining ever-changing workplace activities, the interior plays an important role in communicating the company’s voice, character and aspirations. Environment aesthetics set an important tone — whether bold or subtle, dramatic or contemporary. Visual expression can happen anywhere, yet for decades, system surfaces and materials have largely been ignored. Narrate changes that in dramatic style, emphasizing the personality of a brand and creating positive experiences in today’s workplace.

Narrate offers a streamlined framework to tell your brand story throughout the workplace landscape. While bringing together a wide range of complementary components and products, Narrate’s end panel system can be outfitted with customized graphics, mixed materials, layered panels, seamed panels and more. The collection allows designers to incorporate ‘shelters’, creating visual interest, acoustical separation or to encourage private thinking areas. With an advanced infrastructure, Narrate fully supports teams with a seamless integration of storage, technology, and the choice of static or height-adjustable work surfaces. What’s more, technology is effortlessly incorporated with the ease of connection through any panel and cleanly concealed throughout the system. Narrate works hard for you, instinctively combining design, technology and flexibility to support a dynamic workplace environment.

Let your brand story unfold through the expressive, flexible design system of Narrate.
BREAKING THE TRADITION

Narrate is a departure from the ordinary, offering a look that’s simple and structured, yet visually interesting. In the open setting, Narrate breaks down walls and brings people closer together.

Also shown:
Task Seating: Joya / Lounge Seating: Joelle & Theo / Storage: Footprint / Tables: Dock & Theo
FIT FOR ANY LANDSCAPE

With Narrate, standard work areas are replaced by beautiful settings, naturally fit for open landscapes while preserving the best characteristics—privacy, worker autonomy, and spatial efficiency.

Also shown:
Task Seating: Joya / Ottoman: Joelle / Occasional Table: Bloom / Storage: Footprint / Work Table: Dock / Stool: Lusso.
MEETING POTENTIAL

Keep teams in close proximity, where they can break for a meeting at a moment’s notice. Monitors seamlessly integrate into back-painted glass frames for a flush, clean aesthetic.

THOUGHT STARTERS

Collaborative Landing
Perfect for coming and going. Provide mobile workers or on-site guests everything they need, all in a minimal footprint.

Robust Bench
Encourages creative interaction and fluid conversation, while ensuring everyone has a home base. An attractive color palette elevates style and character.

Solo Retreat
A private place that lives within an open setting. Retreat for a private call or moment of solitude, while still feeling connected to your surroundings.

Clean Appeal
Keep it professional and buttoned up. This configuration offers plenty of storage space for organizing information.
THOUGHT STARTERS

Four Quarters
Configured for collaborative work, this setting equips individuals with everything they need to be productive—space, storage, and power.

Bare Necessities
Equipping a team doesn’t have to be complicated. Technology, collaboration, below-surface storage—it’s all there.

Double Duty
Crisp, clean configurations support individual and social work—simultaneously. A mix of products and materials bring all of the elements to life.

A Striking First Impression
Narrate makes a strong impression by showcasing a brand’s character while encouraging users to move throughout the day with height-adjust desk options. Its clean aesthetic provides health and wellness all in a single destination.
GET TO KNOW NARRATE

There's a lot going on with Narrate, and for good reason. The system provides essential components every worker needs, along with plenty of fresh ideas. Top to bottom, end to end, Narrate makes a clean statement and supports workers on multiple levels.

Narrate frames are available in five different base heights and can be built up to 80" and 93" tall by adding 1 or 2-high stackers.
