**Overview**

**Teem** creates a casual collaboration and conversation setting by providing media support, space division, with easy power access.

**Side and center touch-latch doors**

are standard for storage access and wire management.

**Several flexible options**

are available for routing cords and cables. These include:
- Factory-installed C8 and C9 grommets
- Factory-installed C4 cut-outs for power/data/USB centers

**Choose from a variety of top shapes and finishes**

to create your individual style and adapt to multiple budgets.

**Media cabinets**

are available in veneer and TFL. Grain direction runs vertically on wood veneer models and horizontally on TFL models.

**Media cabinet, media top, and leg/base**

are specified separately, increasing the flexibility of the product.

**Bases**

are offered in three different heights in the following styles:
- T-leg
- Y-leg
- Disc base

**Stow wall cubbies, wall panels, media devices, or media top**

may be mounted to the back side of the media cabinet for additional functionality.

➤ See the Stow chapter of the Kimball Meeting & Collaboration Price List.

**Note:** Media cabinets are not intended for use side by side with a single media top mounting off the center.

**IMPORTANT:** When moving cabinet, all connecting units must be disassembled prior to moving.
Media Tops

**Details**

**Teem media tops** are available in:
- 1 1/8”-thick thermally fused laminate (TFL)
- 1 3/16”-thick high-pressure laminate (HPL)
- 1 3/16”-thick high-pressure laminate (HPL) with a wood rim
- 1 3/16”-thick wood veneer

**Four top shapes** are available:
- Rectangular
- U-Shape
- Taper
- Soft-hexagon

Not all top sizes are available for every base application.

➤ See price list pages for each base type and corresponding top size

**Rim Profiles**

- **P** Softened vinyl rim
  - Applies to TFL or HPL tops
  - 3mm vinyl edgeband
  - Rim profile on all sides except the back edge that attaches to the media cabinet for a flush fit

- **J** Self-edge rim
  - Applies to HPL tops
  - Rim profile on all sides except the back edge that attaches to the media cabinet for a flush fit

- **M** Reed wood rim
  - Applies to HPL with wood rim or wood tops
  - 3mm shaped wood on all sides except the back edge that attaches to the media cabinet for a flush fit

- **S** Knife wood rim
  - Applies to HPL with wood rim or wood tops
  - Knife rim on on all sides except the back edge that attaches to the media cabinet for a flush fit

**Grain direction** runs with the width of the top for all veneers and finishes.

**Seating capacities** are as follows:
- 42”D x 60”–72”W = 5
- 42”D x 84”W = 7

Media Cabinets

**Details**

**Media cabinet** can accommodate TV screens up to 80 lbs. Media devices may be mounted on media cabinet with fixed TV wall mount brackets only. Extendable or tilting mounting devices cannot be used. A field cut will be needed for cord and cable routing into the center of the media cabinet. Media devices and mounts are not included.

**Planning Factors**

At least one top is required for each media cabinet.

One top is not intended to span more than one media cabinet.

Media table height impacts the size of TV screens that can be used. Screen measurements should be measured diagonally corner to corner. If top is installed at worksurface height, the media cabinet can accommodate a 55” screen; standing-counter-height top can accommodate 40” screen, and standing-height top can accommodate 32” screen.

**Connections**

Mounting bracket for attaching media top to media cabinet ships standard with all tops.

When moving cabinet, all connecting units must be disassembled prior to moving.
Teem provides several flexible options for routing cords and cables, including factory-installed C4 and C5 cut-outs for power/data/USB centers.

Factory-installed grommets and cutouts are available as an option on media tops in pre-determined locations. >See below.

**C4 cut-outs** (8\(\frac{1}{2}\)”W x 4\(\frac{1}{2}\)”D) are for use with:
- Mho retractable power/data center with 3 prong plug (KCEB2PDPS)
- Mho retractable power/data/USB center with 3 prong plug (KCEB2PDUPS)

Power centers must be ordered separately for field installation.

**C8 and C9 cut-outs** are for use with:
- Vault turnbox power/USB center (KCE4124PD); specify C8 cut-out (10\(\frac{1}{2}\)”W x 4\(\frac{1}{16}\)”D).
- Vault turnbox power/data/USB center (KCE4164PD); specify C9 cut-out (14\(\frac{5}{8}\)”W x 4\(\frac{1}{16}\)”D).

Power centers must be ordered separately for field installation.

**Perks loop-style undersurface cable manager** organizes cords and cables under tops. Cables pressure fit into individual loops. Openings are 1"D x 5\(\frac{1}{8}\)"W x 1"H and can be removed to expand capacity. Black plastic. Set of 6.

Perks loop-style undersurface cable manager is also available. >See the Perks chapter of the Kimball Desks & Accessories Price List.

Grommets and other cable management options for field installation are also available. >See the Perks chapter of the Kimball Desks & Accessories Price List.

**Cut-Out Locations:**

</tr>
</tbody>
</table>

Note: Dimensions listed are from the center of cut-out to edge of top.
Blade bases are available in two distinct styles:
• T-leg
• Y-leg

Blade bases are available in three fixed heights:
• Worksurface height (28”H) for sit-down meeting areas
• Standing Counter height (35”H) for teaming and standing laptop use.
• Standing height (42”H) for general sit-to-stand meeting use.

Two different foot depths are available: 12” and 15”.
➤ See pricing pages for base compatibility to top shape.

Column and foot for blade bases are available in matching or contrasting powdercoat finishes. Foot is also available in polished aluminum at no upcharge.

Column on blade base is 2¾”-diameter, 10-gauge tubular steel with a cast aluminum foot.

Disc bases are available in three fixed heights:
• Worksurface height (28”H) for sit-down meeting areas
• Standing Counter height (35”H) for teaming and standing laptop use.
• Standing height (42”H) for general sit-to-stand meeting use.

Disc bases are metal and available in three paint finishes; column and disc may be specified in contrasting colors. May be used to support rectangular, U-shape, taper, or soft-hexagon media tops.

Disc base column is 3” in diameter. Assembly is required in the field.

Black plastic glides are standard on disc bases. Glide floats base ¼” above the floor with ⅛” adjustability.

Connections
Attachment hardware is standard with all bases.
All bases mount to the underside of the media top with a fixed steel plate.

Related Products
Wish stools and sit-to-stand seating adjust for counter-height (35”H) media tables.
➤ See the Wish chapter of the Kimball Seating Price List.

Wish stools and Bingo stools pair well with café-height (41”H) media tables.
➤ See the Wish and Bingo chapters of the Kimball Seating Price List.

Undersurface wire managers are available.
➤ See the Perks chapter of the Kimball Desks & Accessories Price List.
Media Cabinet

Standard Includes
• Cabinet: TFL or Wood
• Touch latch access in side panels
• Wire management access in center of the front panel

How to Specify

Model
Material:
LL = TFL
W = Wood

3 Wood finish price group (omit for TFL):
STD = Group 1
STD2 = Group 2 (+20%)

4 Wood finish or TFL color designator

- Special wood finishes
- Customer-specified laminate (CSL)
- Customer-specified paint (CSP)
- Fabric application and colorways
- Customer’s own material (COM) overview
- Alliance program
- TB133 process

**IMPORTANT:** Wood finishes applied to solid hardwood are complementary to the same wood finish applied to wood veneer, but not an exact match.
