*Suitable for ADA applications.
Top drawers on flat-front and shaker-front bedside cabinets are available:

- Non-locking (standard)
- Key random with a black lock core and black hinged key (KRB);
- Key random with a silver (matte nickel) lock core and black hinged key (KRS); or
- Key specific (KS)

Note: Radius-front bedside cabinets are non-locking only.

**Key Random:**
When key random option is selected, key numbers will be assigned arbitrarily at the factory with key numbers ranging from KCCB001 to KCCB300 (black) or KCCG001 to KCCG100 (silver).

Randomly numbered lock core(s) will ship standard along with your order for field installation.

With random keying, different furniture units may or may not have the same key number. If you must have all locks keyed differently or all locks keyed the same, choose the key specific option.

**Key Specific:**
When key specific option is selected, the storage unit will be pre-drilled to accept a lock core; however, no lock cores will be shipped standard with the unit.

You must specify lock core(s) separately for key specific option; specify any key number from KCCB001 to KCCB300 (black) or KCCG001 to KCCG100 (silver).

To key all the furniture units in a workstation or department alike, choose the key specific option and order the quantity of locks needed for your installation.

**Installing Locks:**
Standard key that ships with the lock core can be used for the initial installation of the lock core in the field.

**Changing Locks:**
IMPORTANT: A change key, specified separately, is required to remove lock cores in the field.

**Master Key:**
Master key is available.
