FAREWELL TO THE SINGLE PURPOSE SPACE

Say hello to Dock. A full-facility table platform that offers a range of table configurations, top shapes and materials, edge profiles, and base styles to personalize the furniture to the design intent and character of the space.

Dock is designed around base systems that scale to, and accommodate, the need at hand. Configurations aren’t limited to one size or a particular application. Most styles and table types are available in multiple heights, as fixed or mobile, and with a range of technology choices. With that kind of capability, it’s no wonder Dock is the ‘go-to’ table line.

A SUPPORTIVE SURFACE

Breakthrough innovation doesn’t happen in a little beige room. Attracting those who innovate collectively requires a vibrant, diverse, and inspiring locale and space. Dock tables let you specify large, modern, airy tables that create opportunities for collaboration and reflect the personality of the organization.

Information sharing can occur in many different settings—at large tables or clusters of tables pushed together. Below play, Dock tables provide multiple ways to equip locales for group work, including comprehensive power and data connectivity. If you’re built for speed, utilizing stand-up meetings for quicker interaction, there’s a full range of Dock, standing-height and meeting tables to support this requirement.
Comfortable spaces are found at work and home, dining and relaxing, or learning and community and Dock has the style to fit all those avenues. Dock tables provide an expressive, cohesive look across multiple heights and sizes, along with the ability to use a variety of materials specification to provide a comprehensive solution.
STUDIO, COMMUNITY, AND GATHERING SPACES

With cohesive design aesthetic across applications, consistent specification logic, and universal surface materials offering, Dock tables encompass public, private, boardroom, and mobile work; occasional-, seated-, and standing-heights; and multiple modern and traditional base looks. But more, Dock offers an extensive solution set for the people-intensive, multiuse spaces in today’s high-performance facilities.

MEDIA, RESOURCE LAB, AND LEARNING SPACES

We live in a world driven by on-demand knowledge... which in turn, relies on high-functioning spaces to seamlessly merge technology, community interaction and personal space. Dock tables offer large group tables with power/data connectivity and mobility that can be staged and specified throughout a project to achieve both design and technical consistency.
