Details

**The wePresent® Wireless Presentation Systems** offers an abundance of solutions and works in any environment including education, corporate, hospitality, and more.

**Enhanced WiPG-1600W interactive model** supports both wired and wireless connections, allowing greater network flexibility and new features designed to inspire interactive meetings and learning.

**The new wePresent® Wireless Interactive Collaboration System** is designed for corporate and classroom applications.

**Enhanced WiCS-2100 collaborative model** offers full integration with Chromecast and AirPlay, dynamic screen layout, eco standby mode and on screen user preview of connected device content for better moderator control.

**Features of both systems** include:

- Cross platform support for Windows, Mac OS, iOS, and Android. Connect it all wirelessly. Bring your own device meets wireless projection
- Up to 64 users can connect at one time
- Wireless presentation over any existing network (LAN) in full 1080p HD resolution
- Quadrant display allows users to project up to four devices on screen
- USB guest access provides plug-and-show USB token to enable a guest to give a wireless presentation
- Touchscreen control
- Interactive whiteboard
- On-screen annotations
